2IIM	Online	Na	44000	8 months	<p>VARC - Jatin Sir majorly handles this section. This is absolutely the best. The material used, explanation everything is perfect</p> <p>Quants- Handled by 2-3 faculty. This is Pure Gold. Rajesh Sir's quant lessons are the best.</p> <p>DILR. I felt this section is a Lil bit chaotic one, it's kinda unorganised.</p> <p>Mocks are very much standard.</p> <p>Overall Experience 8.5/10</p>
2IIM	Online	NA	32000	6 months	<p>2IIM is absolutely abysmal in every sense of the word.</p> <p>Their marketing team is the only decent thing, since they bait so many students into buying their program while providing NO VALUE.</p> <p>Their site? Doesn't work half the time.</p> <p>Their mocks? They have 8 mock papers, which have no video solutions and barely any decent text answers.</p> <p>Their course? Horrible pacing and content, full of shortcuts which can't be applied in most questions anyways. No basics are taught here.</p> <p>Live classes aren't recorded and you can't even watch them later at your own time.</p> <p>Their app is filled with technical issues and bugs all the time which makes it useless.</p> <p>It's really apparent that their founder Rajesh, is just milking students for money and teaches 0 live lectures and isn't active anywhere on the platform.</p> <p>I have never seen a faculty help a student in 6 months of experience here except Mr. Jatin who teaches VARC and actually cares about the students.</p> <p>Please, please save your money and buy a different coaching subscription.</p> <p>Stay away from 2IIM.</p>

2IIM	Online	NA	Rs 18,000	June to January 31st (You can also talk to them and extend the duration if you need it towards the end)	<p>At the time of writing this feedback (7 Oct 2022) I'm honestly very satisfied with their course and overall structure.</p> <p>I'm a part of their Green course in which they provided me with high quality pre recorded lectures on every single topic in all three sections and numerous basic and advanced level topic tests for each chapter.</p> <p>They also provided me with XAT DM lectures along with 4-5 full length mocks (sorry I don't remember the exact number right now) which is really very helpful because XAT DM quality content is not easily available which makes it a tricky section to prepare for.</p> <p>15 cat full length mock tests with 10 more of them along with 4-5 sectional tests each for VARC DILR & QA with their partners takshzila.</p> <p>Apart from all this the thing which I really liked about 2IIM is that there's a strong sense of peer to peer learning among the fellow students of 2IIM because I've seen that whenever someone posts a doubt related to some question or something in the group the other students are always ready to help them and solve their doubts.</p> <p>And whenever needed the faculty members also help us so basically it's a really nice study environment here. And I'm not saying all this just to promote them but I genuinely feel that my experience as a student here has been really really well and if you want to cross check anything in future then I'm also open for that.</p> <p>Finally I'd just like to say that for me, this was the best CAT coaching I could have asked for and now I just want to get a really nice score so that I would be able to do justice to myself and as well as the fabulous teachers of 2IIM.</p> <p>Thank you.</p>
2IIM	Online	Na	27000	9	One of the best in all aspects. Just one suggestion -They should add more problem solving concepts (videos) which i think is important. Rest everything is topp notch
2IIM	Online	NA	25000	6 MONTH S	<p>the people over there were so genuine and always available for doubts, especially rajesh sir way of teaching and his perception towards cat prep changed everything. quant and varc content is good but there isn't enough content for dilr. they also dont have sectional mocks for which they have tied up with takzhilla. overall it a great place to prepare for cat.</p>

2IIM	Online	NA	35,000	1.5 years (Jan to Jan + 4-5 months interview prep)	The faculty at 2IIM is great with their content delivery, always on their toes to solve doubts and be there for the students. The study material is good, they send a few hardcopy books but the majority (and great quality/level) material is inside their online portal as tests which is great for timed practice. Mocks are good, they do have detailed analysis videos. All in all this has so far been a great experience for me where I feel a lot more confident with my prep than I did last year :)

Alchemist	Online	NA	Rs. 55000 (approx.)	Its for 1 year and 3 months	Faculty :- Some teachers were really good but most were little more than average or average. Section wise feedback :- they have sufficient material for Quants and verbal but for DILR, i would say it is insufficient. Mocks:- Mocks are good. Study Material :- Study material of quants and verbal are satisfactory to some extent but its opposite for DILR. Other things :- They have good forum for developing concept, speed and decision making. And best thing about this institute is that you can choose teacher as per your comfort level
Alchemist	Online	Delhi	40,000	4 months	Apart from 2 faculty, didn't like any other faculty. I feel it as a waste somewhere because I am studying now from the Rodha channel suggested by you
Alchemist	Online	NA	35k	1 year	The classes are at a very slow pace. The mocks are quite nice and they have ample study material. The teachers are a mix of good and okayish people. People who can do more of self study and just need someone to Clear their basics, it's a good place. For average students like me, you should go for something else.
Alchemist	Offline	Delhi	50000	1 year	There is module wise system here. Only 1 or 2 faculty were good rest were not upto the mark, no one taught us the tricks that are taught in premium institutes like IMS time etc. Study material and mocks not upto the cat level. Only positive was their study zone doubt facility

Anastasis Academy	Online	NA	17000	13months	It's one of the best CAT Coaching. But sir is not like another CAT coaching institutes. He didn't market his products. Shankar sir is giving everything for a student to achieve good percentile in CAT. Shankar sir didn't sugercoat things like other faculties. He's straight to point. Don't expect a motivation from his side. He's very strict.
Anastasis Academy	Online	NA	18k	Jan to augment	One and only Shankar sir. He is a hard Taskmaster and an amazing faculty. The master of all 3 section. He is more hardworking then his students. The best thing about him is that he gives you reality check and if you are hardworking then definitely you will make it.
Anastasis Academy	Online	NA	17000	1 year	There is a single teacher teaching all three sections. He is a very skilled teacher and knows how to navigate the syllabus and teach accordingly. Frankly I think that he is one of the best teachers currently in the coaching business. The batch size is usually small comprising of 100 students max. Equal attention is given to each student and I would recommend this coaching to everyone who is aspiring to give CAT.

Anastasis Academy	Online	NA	17000	1 year	<p>There is only one faculty who is single handedly running the whole show. He is non other than Arvind Shankar sir (aka anastasis Shankar).</p> <p>I would 1st like to introduce you with his record in MBA entrance exam for 2021 circuit.</p> <p>Cat2021-99.99%ile XAT2021- AIR2 Snap2021-AIR2 IIFT2021-AIR2 NMAT-250+</p> <p>Being a multiple time 99.99%iler himself he knows the tid bits of exam. If you really wants to be smart in your life, you can join his course. OfCourse he will never butter you by giving you false hopes.</p> <p>Talking about the fees of the course, it is definitely one of lowest in industry. You won't get any hard copy of any subject; everything will be online. Also do not worry about getting out of the content, no student will ever be able to complete 100% of the material provided by him.</p> <p>Now about the teaching pedagogy, he divided complete QA into 5 parts, Complete DILR into 6-7 parts. The syllabus for the same will generally get over by month of July itself. VARC is a practice focused course so generally it is more inclined towards the practice bit of it.</p> <p>After completing the syllabus will be having plenty of sectionals and 'how to go about solving mock part'.</p> <p>we had plenty of mocks as well as sectionals of each qa,dilr and varc to attempt.</p> <p>The most important thing is, if u want to join the coaching the end date is generally 31st of May or some fixed number of students, whichever happens earlier. This is something unique in this industry. Also, there are no crash/booster/last mile/ courses available.</p> <p>Again, if u are ready to give ur efforts, sir is always there to help u out.</p>
AnkGanit	Offline	New delhi	55000	1 year	<p>Faculty: Interactive, Very generous towards doubt-solving and problem-solving.</p> <p>Quants: Taught by Ankit sir, dont regret joining ankganit after learning from him. From basics to advance everything related to cat is taught. And on point.</p> <p>LRDI: Also taught by Ankit sir. Same feedback as above.</p> <p>Verbal: Taught by Hriday sir, will just say no one could teach better than him giving real-time motivations as he is from FMS. His stories from the campus still motivate me in hard times when I scoreless in mocks sometimes. His storytelling way of teaching vocab is just awesome.</p> <p>Mocks: Same as per the cat pattern. But I would suggest you one thing, start giving mocks as early as possible so that you can solve at least 2 other coaching mocks. Which is very necessary when you are targeting the 99 percentile.</p> <p>Study material: You can say it is a bible in terms of preparation. The material is streamlined in such a way that this is the aptest and most concise form.</p> <p>Concluding, to be honest, I compared so many coaching institutions because I wanted to take a conscious decision at that time in terms of all the above things and this was the only institute that ticked the checklist of my requirements.</p> <p>Good luck and best wishes for starting your journey.</p> <p>*Disclaimer* - This is an honest review coming direct out of my heart just for appreciation.</p>
AnkGanit	Offline	CP, Delhi	60,000	1 year	<p>Don't join ankganit, they dont give you proper GK classes. They start the test series from August (ideally it should be from april) which made so much difficult for me to get to know my real performance earlier. Their test series level is very low, it won't give you real idea of a cat paper. At the time of counselling they promised that they will take chapter wise test regularly but it doesn't happened. Even for Irdi only 7-8 classes are taken. Teachers are good here but they focus on steps more not on the short trick. They don't tell you short tricks, which actually save your time in exam. I think they should increase their team, so that they can also focus on test series and other things, because making concept clear is not the only thing a person also need questions to practice (in test form)</p>
Apex - Cat coaching	Offline	Visakhapatnam	48000	15 months	<p>The best cat coaching institute in vizag.... The teachers are really good and helps every student with their doubts individually. Their study materials are good for concepts clarification but they have online portal consisting of all the questions from every topic and also have concept tests too. They take revision classes and workshop classes too nearing the end of cat. They sre also conducting mocks in online portal and they are really good and also teachers upload video explanations of the entire test upon how to solve and all</p>

Aptitude saathi	Offline	Chhindwara Madhya Pradesh (Faculty take online coaching too)	3000 per month (monthly fee structure)	3 hours	Coaching is really great because of small batch size faculty pay attention to each and every student and also she take care of everyone like an elder sister and monthly fee structure is really helpful. She provide various study materials and she never treat us like "just students". She guide us through each and every step of our preparation and helps with other problems too.

BYJU's	Online	NA	45k	6 months	Faculty were good but not at all satisfied with the interaction. There was no regular interaction and mandatory classes. Videos were provided and 1 live class occurred in the evening but the kind of interaction and motivation a CAT aspirant need, was not provided. This is my review totally. Mocks are good. They provide good variety of questions but if someone asks me i will suggest them time,ims, studybuzz or catking mocks. They are more relevant. Also I would like to suggest you didi that please make videos for CAT aspirants more frequently. They helped me a lot. And thankyou so much for that.

BYJU's	Online	NA	27000	For me it was 5 months (5'til CAT2022 + 4 more months for other tests, GD, PI, WAT), but it can be more, depending on how early you decide to opt their coaching	<p>BYJUs are good when it comes to mentorship, coaching, mocks and practice quizzes, etc. I have heard from other batch mates(1 or 2 out of 60) that their customer service is bad. But the only hassle is waiting for the tab(if you opt for it) after that in my opinion it's smooth sailing.</p> <p>The live classes are top notch. Doubts are cleared instantly in the classes and through the ask doubt option in their app, although i have not used this personally, but i can see the doubts of other members and they are always addressed.</p> <p>The recorded videos in the tab are also very good, if one has the discipline to watch them they are very helpful</p> <p>Aside from 20 full length mocks, and 10 previous year papers, various section wise and topic wise quizzes, they also conduct all india mock through which i can gauge my standing compared to a larger crowd.The level of questions are also very good. Most mocks are harder compared to actually CAT papers.</p> <p>They also have a "toppers batch" option based on All india mock performance, i recently got added to that batch and they teach some advanced problems and a lot of workshops happen (online+live) which are also good.</p> <p>I joined BYJUs after writing their scholarship test and got a scholarship of 50%>. So i had to pay for just the discounted tab program and the live classes and other classes (which will come after CAT : WAT GD, PI classes) were free of cost. I would say there is a lack of clarity around the fee and everything as it depends on how you can haggle and how well you perform in the test, but all in all, i feel i got a good deal.</p> <p>There are also personal mentoring session with 4-5 members in a group where you can get your non technical doubts addressed (eg: how to go about with preparation, where i should concentrate based on my mock scores, how can I divide my time if i am a working professional, etc.) I got to attend one such sessions and it was helpful enough to get a structure in my preparation.</p> <p>The faculty are the best thing that byjus can offer followed by the mock tests.</p> <p>The VARC and DILR classes go really really well and i enjoy them a lot, and they have added great value to my preparation. The Quants section are also really good, but i can't comment more than this as i missed a lot of classes due to my work schedule. So i cover my Quants with the recorded sessions provided and they are the best. But if i have to sum up, the faculties are the best part of BYJUs</p> <p>This is my honest feedback. When it comes to any type of learning and classes, you need to be able to put your own time aside from the time you dedicate for the live / recorded sessions, so it's really in our hands how we utilise the material. But there is no compromise when it comes to teaching, mocks and practice quizzes.</p>

C2C Mentors	Online	NA	12000	4 months	At first I watched their videos based on varc strategies specifically, on YouTube and decided to join the coaching for VARC sectional only, And I was supremely happy with my decision as the mentors here not only help us in our preparations but also in whatever issues we are facing in general life. So initially I joined for VARC and after that I also decided to join the DILR batch and yet again they didn't fail to make the course worth the hype, here i would want to mention the mentors who have literally gone on the ABC level of a perticular topic and never left a student with any doubts in the lectures, Ketan sir and Shanky sir thier strategies worked wonders for in mocks hence I would highly recommend C2C mentors for upcoming CAT aspirants.
C2C Mentors	Online	NA	25,000	8 months	It is really good for CAT exams specially for concept building , but I will not recommend their mock test

DILR by Shanky sir brings the best set for practise from basic to advance level. We have solved 300+ sets in class so far. Quants by arpit sir, gaurav sir and vaibhav sir cover the basics from scratch upto the challenger. If looking for an overall great coaching. It's the best bet. Mastercat mocks of c2c are at par with cat level and even ims and time mocks. Career Launcher	Offline	Patiala	50000	1 year	Faculty was not good enough., study material was not of high level but yes there mock test are of good quality and the best way to practice for sectionals.
Career Launcher	Offline	Sector 8, Chandigarh	₹35000/-	11 months	Faculty is decent. VARC- Vineet Sir, the best teacher for verbal. LRDI- Vishal Sir, not good for LRDI. QA- Vishal Sir, great for Quant. Mocks are the best in the market. Do take the test series if you don't want to join CL. Study material is also good but some concepts are not covered in the classroom like Instalments. Doubt taking sessions are very poor. They do not take time out for doubts. If they do, they make you wait for 2-4 days (if you're a bright student). Their Star batch is amazing. Overall: An amazing institute. Only downside is doubt sessions and LRDI faculty.
Career Launcher	Offline	Agra	50000	1 year	Faculty was not good. They are just making us fool. Teacher of LRDI section ruin our 1 year and verbal teacher didn't gave any tips to do rc and parajumbles they just gave us sheet to solve. Rest of the things are great like study material, mocks etc.

Career Launcher	Offline	Pune City	₹40,000	1 year	I joined in the main branch of Career Launcher Pune. There are different teachers for different topics for each section. It gets contradicting after some time as to whom to follow. The study material is good but the explanation for solutions in quant is horrible. So you need to rely on teachers for that. Teachers explain well but they don't give too much information on how to use the study material in a good way. Faculty for VARC & LRDI is good. For Quant, only one teacher is able to teach properly. The online portal is great but it's not user friendly. It charges a lot for extra courses. Mocks are good. You will get plenty of practice. My only advice is that whichever city you are staying in, get a thorough review of all the coaching institutes in your vicinity.
Career Launcher	Online	NA	The price was approx ₹60,000 plus but with some discounts I paid 46,000	2 yrs	The faculty was profusely filthy but the Sectional tests, topic tests and mocks were good, it was present on the app of CL. Career Launcher	Online	NA	Around 80,000 I think	Till CAT 2023	Please don't join it, not worth it. Career Launcher	Online	NA	55000	Started from January, and still ongoing. Will continue till the end of the session.	Career Launcher has a good faculty. They are helpful too, whenever you come across a doubt. But, the problem I faced with Career launcher is syllabus completion of Quants. With other sections, you don't need to study each and every topic, but in Quants you are required to do that. The syllabus was supposed to be complete by 15 Sep, but faculties are still lagging behind. I felt some faculties don't know how to teach. They have more than enough knowledge, but when it comes to communicating that to the students, I was not very satisfied. The main faculty members of CL are really good. You can see that they are doing the best they can to prepare you. They tell you all sorts of strategies, decode every passage, every DILR set, every question of each and every mock. With their guidance, you can really crack CAT. Apart from that, I feel the mocks are almost at the level of CAT (with a few variations, of course). The sectional and topic tests are good, you encounter a variety of questions. The analysis which they provide is also too good. There are various tools to help you in your analysis of mocks, and even topic and sectional tests. The study material provided by Career Launcher is sufficient enough to prepare you. In fact, you can encounter all sorts of difficulty level questions. To sum up, the study material is excellent. The faculty members are okay, and test series is good too. Even though I faced some problem with faculty, their shortcuts, methods, and strategies have really helped me
Career Launcher	Online	NA	20k approx	1 year +	Faculty is good, but you should not completely rely on them as they cover the basic and you have to practice on your own. The aspiration portal they provide is amazing with a lots of topic wise test and sectional test Their mocks are also amazing. They give you funda books which is also good but i prefer Arun Sharma. They give you materials after class for solving which is good to develop your basics and have quality questions. Overall in my opinion a coaching only helps you to maintain consistency and you get good and experienced mentor.

Career Launcher	Online	NA	40,000	1year	MOCKS - The mocks are good because the difficulty level of the question is similar to cat STUDY MATERIAL- Personally I think so the study material provided by them is not that bad but i will suggest someone else to use some other books because the number of questions provided in some topics are very limited which doesn't help us to understand the concepts well . Online coaching class - They don't explain the concept nicely they just assume that everyone knows how to solve the questions so they just teach aise upar se if some students used to ask questions in between the teachers used to get annoyed. Personally I'm from non-engineering background it was difficult for me to understand certain questions because the teachers used to teach everyone assuming that we know everything.
Career Launcher	Offline	Mumbai	32000	1.5 yrs	Overall a really great experience(in all aspects) very good material for CAT for non CAT I would recommend other sources I don't which but I am sure that there are better ones available
Career Launcher	Offline	Kolkata	63000	13 months	There are a few good teachers such as Shakeeb sir, Bidhan sir and Nikunj sir. Other than that all others are pretty much average. When u join the offline batch, u also get access to te recorded online lectures incase u missed the offline class so that's another good thing. There r ample no. of mocks to prepare you for the D-Day so that's about pro. But 1 major drawback is that they teach really really fast and just cover a few of the basic Lod 1 sums while leaving the difficult ones all to ourselves
Career Launcher	Online	Noida	47000	6-7 months	They make u feel connected.If you are not doing good in a section they provide you 1-1 personnel session with the teacher as well.

Career Launcher	Online	NA	60,000	August 2021- March 2023	I think I made the best decision when I joined CL. The program that I purchased included mocks, sectionals and topic tests which is enough for preparation after one is done with the syllabus. They have an amazing mock series included in the program with a deep analysis method and video solutions. They have conducted various workshops in the past 4 months for understanding how a person should go by. Their approach towards QA section is something I really love. Even if somebody decides to study on their own or some other coaching should definitely purchase CL's mock series.

Career Launcher VARC 1000	Online	Na	3000	4 months	<p>VARC 1000 by cl caters to VARC only and for someone who is very weak at it should go for it because Gejo sir teaches from basics about things like what is the controlling idea, author's purpose and how to navigate tough passages. His style of teaching is great and for someone from a non arts background who has always been bad at english related subjects the course can be very helpful.</p> <p>When I gave my first mock before I started my preparation I got 8/7/16 marks in the cat 2021 VARC sectionals and now after 4 months I am getting around 35-45 in mocks and also in cat 2020 VARC sectional mock I got 37. I can see the improvement because now my fundamentals are strong</p>

Catking	Online	NA	20000	1 year-1-2 hours a day	Faculty is good in terms if behaviour but their teaching method doesn't work...section wise it's fabulous for quants, good for LRDI and okay for VARC, mock are good, study material is ok, it's just that they don't devote much time and method on VARC..
Catking	Online	NA	20,000	2 hour twice a week and for 1 hour daily	Lower than i expected as it is on Youtube, faculty is good especially Sudhanshu sir who teaches quants & DILR, Mocks is on to the point. One thing i don't like about them is that they complete the syllabus in just 40 days after you joined the team and they teach verbal for just twice a week in which there is vocabulary class on every alternate week which i think is not very imp for CAT pov, and yes one thing i like about them is they keep motivating you whenever you feel low like you mam.
Catking	Online	NA	20000	1 year	The faculty is not upto the mark except sudhanshu sir, every 2-3 days faculty changes without any coordinator inbetween them. Someday they will start with basic where on some higher level questions were taken. They sell you course on saying 40 days challenge, in reality it's always basic teaching with repetition. Most of the time you will find yourself solving same questions again and again. Mocks are not upto level of IMS or TIME, only 1000-2000 students attempt their mocks. Study material is sufficient with good pre recorded videos and shortcuts. If you are buying their cources after watching their YouTube videos, then please don't. Ask your seniors and friends first before joining any class.
Catking	Online	NA	20000	1 year	Mocks are goods, i am student of intensive batch which include snap,nmat, iift, Xat. Join only if you are to attend live classes, recording quality is not upto the mark, overall i had a good experience nd yes ebook are very helpful

Catking	Online	NA	20k	2 hrs class then dashboard	To be honest, I didn't give any mock except catking. And I also solve last year paper so there level of difficulties is not high but ya it is more than cat level not huge gap but ya it is difficult and the study material is the one thing which help me a lot because they have first concept builder then lod 1 which is not that hard then lod 2 then advance then short tricks and a batch where nit iit students study and the question there is that awesome. If you solve all of this you will definitely score 80-90%ile. The faculty mainly sudhanshu sir for quants, bhai quants looks to easy and if you don't trust my words you already getting another form fill by catking student. The VARC is done by verbal God so Maine to tension chod di bhai and the faculty like biswadeep sir, megha ma'am and krishna bajoriya sir there way of teaching and solving a doubt which is to better then other online YouTube video. And if you don't trust it just try it.
Catking	Online	NA	15000 only for CAT, then after 1 month upgraded to OMETs by paying 2000	1 hr each section. 2 section/day. Mon and Wed VARC & Quant, Other days LRDI and Quant.	I really like the dashboard, which includes everything, lot of practice material, different mocks and recorded and live mock analysis every sunday. But the live lectures lacks a lot in interaction and doubts can't be asked. There is a doubt forum but it takes atleast 2-5 hrs to get answered and even more sometimes.
Catking	Online	NA	23,000	1.5 years	All are great which is mentioned above ,,, honestly dashboard is really really helpful ,,,,, also so many B school alumni meet organised so that we get to know much regarding cat 2023 and packages and all that
Catking	Online	NA	20,000	1 year	Live lectures are good but not frequent like they take one topic one lecture only Books are very good Mocks are good For VARC it's best Faculty is supportive despite 1 Or 2 teachers Dashboard is vast they have provided some good recorded videos for concept building, videos lecture of old paper. Guidance and motivation is there...

Catking	Online	NA	12000	6 Months	<p>Faculty: Faculty are really good. Especially Sudhanshu sir for both QA and DILR. Also there is regular live classes to keep you going in schedule.</p> <p>Mocks: Mock are good but cannot actually compare because I don't have any other test series. One thing is the difficulty level varies which actually help prep for different scenarios in real cat.</p> <p>Study Material: Material is E-book only drawback I feel.</p> <p>Feedback: Overall experience was good. Only thing is: being online comes with its fair disadvantages like no doubt solving, No personal mentoring or guidance. You have to do your own evaluation figure out the problem and solve it on your own.</p>
Catking	Online	NA	20000	1 year	<p>I could say not the best ,but better faculty than some other because I have seen some other institutions I couldnt name them.Catking is very hard working and making a lot of effort for better environment to study.Faculty has their moto to get best results and every one has their own style of teaching .you will get better mocks and analysis and also tempo of staying glued to preparation and support is best.Dashboard is great.But only thing I faced issue is there books has lot of mistakes and answers were wrong and analysis of answers in the book was wrong for few.But you can complement with other materials and mainly concept videos and problem solving videos are good and Arun Sharma questions solving videos and more there will be sectionals ,past papers and lot of content.I am good but you could say that this is only a Hindi classes type of coaching I strictly recommend for other language users if you know Hindi also don't opt for this coaching because I can see literally varc section also they teach in Hindi so stupid.</p>
Catking	Online	NA	25k	Till GDPI Prep	<p>CATKing is by far one of the worst coaching ever. Materials are not that good. Even now with only 50days left for cat they have been taking only 45 mins class. All the faculties are not good. And the sectional mocks of VARC are the worst. There are so many old pattern mocks, and they are not changing it even after knowing the new pattern. There has been not a single class which lasted for more than hour. And even in that 1 hour of class, the pace is so slow, like only 4-5 sums per class. Would highly recommend to join unacademy. Ravi sir and Udit Saini are the best for CAT. Nothing is better than Unacademy.</p>
Catking	Online	NA	23000	1 yr 2 months	Great faculty didi
Catking	Online	NA	20000	3-4hrs	In my opinion,all is good but quality of online classes of dilr and quant is not that good. VARC classes are amazing
Catking	Online	NA	15000	120days approx	<p>Never join it. If you are a beginner because the basics they teach you is very less. And most of the time you will be confused with regards to the quants and reasoning section. Take help of YouTube. There are many free playlists available which are actually very good. You just need to search them for a while. And if you think YouTube is not working for uh. Then go for some other elite classes tuitions. But surely Catking is not worth a shot, regardless the amount you wil be paying.</p>
Catking	Online	NA	18000	1yr.	<p>As per my own point of view CATKing is best institute for CAT and OMETs preparation. The strategy (40 Days challenge) they use is seriously amazing. This helps candidates to revise the syllabus again and again and also to get familiar with type of questions consist of different concept alongwith basic.</p> <p>Very first I use to believe that online coaching is not as good as offline but seriously I was wrong because ther DASHBOARD is designed and segregated aspirant friendly and CATKing's daily classes with a proper pre planned schedule is really amazing and besides this they also provide very good level problems during classes.</p> <p>Study material and mocks are really amazing. Their mocks are known as REAL CAT mock. These are prepared by students of IIM-A and B. best part about the mocks is these are not DEMOTIVATING as everyone with good approach on concept can easily score in between required range.Mock analysis video sessions are also very good...and these are categorised by stretegy for different percentile bracket.</p> <p>At last I would like to add the best part about the CATKing is the two OP faculty members, RAHUL SIR (- तू मेहनत करने वाला तो बन फिर देखेंगे ना क्या होगा.....तू भी यही है मैं भी यही हूँ & LET THE BLOODY IIM REJECT YOU.....) & SUDHANSHU SIR.</p>
Catking	Online	NA	10000	3 months	I just recommend that catking is not that good for learning concept and mostly all the teaching faculties are IIM alumni that necessarily doesn't make him teacher with good skill. Its like just good marketing in which they are pros. ...lot of stuff..

Catking	Online	NA	15000	Max. 1 Year	Faculty is amazing. Teachers out there are from symbiosis to NMIMS to sp Jain to IIMs and fms. The director of the coaching, Sumit Singh Gandhi (from SpJain) is very motivating (you can refer to the YouTube channel of CatKing for more info on this) and he himself teaches verbal ability. CatKing study material and mocks(it's analysis) is really really amazing. CatKing has the cheapest price among all coaching institutes of the country for its cat and mba related courses. They keep their children cognizant and as well as motivated a lot through various means.
Catking	Online	Na	25k	11 months	<p>"Best coaching institution". I'm not saying it is best because I belong to it, but like we all know while preparing someday we just feel like giving up because of our mock score or if we are not able to master any topic .. the mentors here are not just teachers they are power house of motivation. All the teachers and faculty are constantly providing you with confidence and motivation to turn the world upside down.</p> <p>I'm not yet done with the cat exam but whatever may be the result i can surely say ... if its any good then it is because of them and if it is not good then its definitely not because of them.</p> <p>I'm an average student with 7 pointer all across my academic.. but they made be believe then even i can be in a good college.</p> <p>What else you require, when you yourself have no faith left inside you and someone else shows believe in you.</p> <p>It is the Best institution for cat coaching.</p>
Catking	Online	NA	20000	1 Year	<p>I joined Catking in december last year. I would like to share the feedback topic wise :</p> <ul style="list-style-type: none"> ●Faculty - It's really a good faculty at catking. Most of them are the alumuni of top B-schools. ●Section wise - •V.A &R.C- The english section faculty is best .The founder himself teaches this section. •DI -LR faculty is amazing . •Q.A - This section depends more on you than the faculty .The more you practice the more proficient you become. ●Study material- The study material for english is more than enough. <p>In DI-LR questions are not at par with cat level, but good for developing that analytical level for solving these questions I recommend you to practice Cat level questions from youtube or online as well.</p> <p>In Q.A you get so many questions to solve but better focus on high level questions rather than LOD 1 and LOD 2 questions.</p> <ul style="list-style-type: none"> ●Mocks -Mocks at catking are tremendously amazing.You get 40 mocks . Other than that section wise test is also amazing, but the most important and amazing are the mock analysis . I don't think any other coaching has this kind of of mock analysis. ●My suggestions- You can join any coaching institute but if you are facing problems in english section then do join catking. It will help you .You can join catking for particular sections as well. <p>For DI-LR- practise the variety of questions and get yourself accustomed to it as soon as possible .</p> <p>For Q.A just remember concepts, formulas and practice as much as you can.</p> <ul style="list-style-type: none"> ◆Even if you don't join catking but don't miss their mock analysis . You can individually buy their mocks as well .

Catking	Online	NA	25000	1 year	<p>Hi Shweta I urge you to tell upcoming batch who are preparing for CAT 2022 to strictly not join CATking , it's worst coaching institute , Rahul Sir who face of CATking and do youtube live will fake promise students and convince them to join but it is worst . There are no experience faculties , none are qualified to teach , the faculty include IIM student who themselves are in 1st year of their MBA and have no experience of teaching . The classes are poor and short of just 40 mins . VARC which is taught by Rahul sir is poor . Just shit taking in the class . The class starts at 10 pm and he joins at 10:20 1 RC per month in class. If you want proof i have all . They just brag about their dashboard which is also not that great , their is no professionalism . I joined CAT + Non CAT combo course . Non CAT class is 1hr a week only on saturday and that too no concept teaching . I money got wasted , i don't want other's to waste their money . Rahul sir will just do trash talk on youtube and student will fall in his prey . I was so late in realising this , and also didn't have money to buy unacademy subscription . I just talk their free classes and prepare . The road is not easy and CaTking has made my road to CAT more difficult . Study material is poor arun sharma is way better than this . Please ask student to not fall in his prey rahul singh's .</p> <p>This is most honest feedback you will find . You can contact me more details . Thankyou!! PS: you video are awesome be it motivation or strategy .</p>
Catking	Online	NA	19999	5 months	<p>Alert! Please dont join coaching on the basis of their youtube videos not talking about catking particularly but for every coaching out there .</p> <p>Catking is good they provide one stop solution for everything on dashboard for quants and Irdi it's good but if you are weak at Irdi than you would be struggling here, i did my prep my various sources for Irdi . And find some errors in there ebook ps-lots of errors , so go for coaching that have good material because thats where you will learn about various question . One thing i found good is that the complete your basics timely and you have your freedom for self study if you have time crunch .</p> <p>So choose it wisely b/c it decides how good you are at your basics thats all you need to clear the cat exam .</p> <p>And for doubt solving your peer groups is the only one responding .</p> <p>So best of luck !</p>

And talking about dilr and quants we have sudhanshu sir. No words can explain this guy. I am simply a big big fan of him. No words to explain hi teaching. In simple words if you cannot understand quants and dilr from sudhanshu sir you won't be able to understand it ever in your life. That's the way he teach. No clearance about the topics and concepts and there teaching method is so confusing.</p> <p>PROs:-</p> <p>Sudhanshu sir is a good teacher for LRDI AND QA.</p> <p>Their mocks are amazing and analysis is best in the industry.</p>
Catking	Online	NA	18000	1 year	The mocks and the faculty is very good but they are more cat and nmat. Specific meaning these 2 courses are good and there's enough material to study from ,but I didn't find their snap xat and iift courses to be as good as their cat and nmat one's. The mocks are decent neither too difficult nor too easy but the video analysis is very good
Catking	Online	Na	25k	12 Months	I have joined catking cause the marketing of that institute was very good which was done by his owner Rahul sir no doubt he is great man. Even unki strategy jo g wo YouTube pe btate wo bhut achhe hota but class worts h quant or dilr kafli jyda bakwasss h or koi line up ni kisi v member se starting mai I thought mai he weak hu but no it was not like that meko Unacademy ke YouTube videos se cheeze thori Samajh aane lagi but catking sucks!!! They should have open that Institute instead of that unko srf YouTube chalna tha . Sorry! But this is the harsh truth of this instituti n I really feel stuck now this was my 1st attempt n I'm not sure ho payega is baar so I will prepare for 2023 also n plz do let me know which one is better.

Catking	Online	NA	19,000 (for CAT and other MBA exams in total)	Joined Since 6th January. (Having intensive course of Catking, so duration is till all such MBA exams of this batch)	<p>Quite great in pushing you to get into this journey and staying motivated and keep trying till the very end thanks to Rahul sir.</p> <p>Personally, 2 faculty are the best there, Rahul Sir and Sudhanshu Sir (Biswadeep Sir also) for others I would say okayish.</p> <p>*Rahul Sir, make things very easy and you will not realise when you start loving VARC.</p> <p>*Sudhanshu sir is one of the best faculty, I have studied from, he stays somewhere in between a teacher and an elder brother.</p> <p>Section-wise, VARC is good with Rahul Sir, as he makes it look as an easily handle Subject, which drops a Section's worry in CAT prep.</p> <p>For quant and DILR, I would say that its all well when Sudhanshu Sir is taking class. Personally, I don't feel that great studying experience and understanding, when other Quant or DILR teacher are taking class.</p> <p>Mocks, I haven't given any other mocks, but have seen Past year exams, and I feel Catking Real CAT Mocks are quite similar to the actual real ones.</p> <p>Study Material, There are ample, their own which are enough and segregated into LOD1 and LOD2 (LOD- Level of Difficulty) making things easy to know, what and when to solve, moreover the Catking Dashboard is simple and easy to use. Arun Sir's whole book is there with solutions in video formats by faculty also. There are many video Questions-Solutions (including almost all past year CAT exam) which I like the most.</p> <p>Additional, Seeing more than 2600 getting into IIM from my coaching gives another level of confidence. Seminars from Faculty of IIMs and other big BSchools helps alot.</p> <p>Support for other MBA exams is good, can't say the best at this time.</p> <p>The only shortcoming, I personally feel here is lack of many great teacher. Those who are present there are enough and as mentioned above great but a few more such teacher's would have been appreciated. Moreover Concept builder videos do their job well.</p>

Catking	Online	NA	19999	1 year	Most of the faculties members are good,except one to two member. Study material and mocks, section wise test and everything is awesome.
Catking	Online	NA	Rs. 12,999 /-	7 months	Faculty is good, good care in every section is taken to cover important topics, study material is good with all needed types of problems, overall good experience
Catking	Online	Na	19000	4 months	The coaching institute is amazing highly recommend. The best motivation to us. Also the best teachers
Catking	Offline	Online	30000 for 23	3 hours	It is really good

CATking and CATguruji	Online	NA	20000	1-2 hrs a day	Although i have already given the review of Catking in my previous form but i forgot to mention the review of CATguruji.. actually i took there one-one Personal guidance session of 1 hours but didn't felt like it's worth it.. so i recommend not to go for it.. and again catking is overall on a okaish line but if anyone who is specifically weak in quants they can look for it as there strongest point is quant only...
Catway	Online	Na	12999	1 year	Best team best guidance
CETKing	Online	NA	20000	10 months	Talking about the feedback mocks were the worst i have came across my preparation as well as the study material. The faculty is not that great according to the cost also they were more focused on shortcuts rather than clearing the concepts.
CETKing	Online	NA	10k	2 months crash course	Don't recommend as Name suggests it's CET focused institute so consider if taking CAT then there're plenty other options
CHedgemakers	Online	Na	38000	3 modules 2-2.5 months each mocks still going on with analysis so all in all 8 months	I feel one should really opt for online coaching but i have come across youtube channels and online sites from even your chanel that have actually helped more in my cat prep than coaching material (sites like cracku, yt channel of sony goyal sir, rodha) if someone would ask me if they should join this coaching then i would not suggest it because it has helped only like 10 percent of my prep (which actually includes the mocks and sectional test) other than that free resources have helped me more.
CHedgemakers	Offline	Indore	44000	1 year + 1 extra	Good for those who are good in maths, they have maths as an additional subject in 12th. Non-Maths students struggle a lot here.
Cracku	Online	NA	13000	4months	For the price of 13k ,it is absolutely worth joining,the website and UI is too good Everything is good but the only problem is that there will be no contact with the faculty and atleast there is no a telegram group for cracku students
Cracku	Online	NA	15000	12 months	Concept Videos - The concept videos were good. For each section they have explained all the topics thoroughly. Also they have structured the videos module wise, so it is very easy to navigate among the videos. Practice Material - The quality of practice questions you get for quants were really good. The same is the case with VARC. But in case of LRDI, atleast for me the questions were either too easy or very difficult. You may not find many CAT level kind of LRDI sets. Mocks - I personally would not recommend their mocks because the quality of questions in LRDI is something which I am not really satisfied with. If you want mocks which are closest to CAT then I think CL mocks would be great. I have taken their mocks and I feel that the questions that appear in CL mocks are closest to CAT.
Cracku	Offline	NA	15,000	6 months	The founder of cracku are 2 alumni of IIM Ahmedabad. Faculty was pretty responsive of every doubt. Mocks were pretty good (sometimes hard), and study material is probably the best (as per my opinion). There was people complaining about a particular part of VARC. I would give cracku the rating of 4.8 out of 5. There is even a schedule of the course that are meant to be taken and completed daily (if you take crash course, they provide you with different schedule). They provide us with every materials, it's the student duty whether to follow it or not. Every sunday there exist a mock test for the student to take, and if time persist after mock they usually suggest to complete the study material target which we have missed out on that day. Daily target questions are also added. Not to mention the live booster classes. Each questions you solve have a great and easy to understand solution but incase the solution is not understandable, there is always the option of requesting a video (which they already provided in some of the videos, or asking their question in the comment section. The comment section is made public, so other people can learn as well. In the end of the day, it really depends on the aspirant how much they are dedicated towards reaching their goal.
Cracku	Online	NA	15000	6 months	Website great, content good.. lacking in providing guidance on shortcuts tips and strategy wrt to taking exam. It's good for concept building

Cracku	Online	Na	7500	Till nov	Faculty is good no issue with that(tho just attended 5-6 live classes rest recorded). Qa faculty is good same teacher teachers Irdi and same teaches varc haven't seen many teachers. For qa just 2 for dilr just 1 and for varc 2,3. Varc i feel like betterment is required for making it equal to cat. Dilr sets i feel are good. Overall mocks r good but sometimes I feel like {CAT doesn't ask this!?!}. For ex. There was a question about image of a point in mock. Rest qa questions match cat level like Asking for minima maxima,no. of solutions,etc. There isn't any study material at least in my course (70 day crash course) there are just tests. 15 min test.
Cracku	Online	NA	10000	1 year	Faculty- 9/10(Quants- 9, DILR- 9.5, VARC- 8) Mocks- 9/10 Practice and sectional tests- 10/10
Cracku	Online	NA	8000	75 days	It's recorded videos it's good for mocks and sectional too
Cracku	Online	NA	12000	7 months	I liked the Faculty. My Quants and DILR Preparation was pretty much covered from this. Also the Mock Quality is really good, though the no. of Mocks were less. Study Material is actually good enough for CAT. My only concern was with VARC. In case you aren't really skilled at reading, the material wouldn't have anything extra to help you out. I had to refer to other online sources for that.
Cracku	Online	NA	10k	1 year	I really like there study room feature.
Cracku	Online	Online	8000	80	Faculty -great (but they're recorded sessions. Sometimes they provide online booster classes) Mocks- they're a bit difficult, but the analysis which they provide is awesome. Study material- there are lots of questions to practice.. especially LRDI & QA. For a student who joins coaching early, will have a benefit in this case.. because he'll have a chance to solve all the questions. I wish I could've joined their coaching earlier. I've joined 80 days crash course batch... There are other batches also.
Cracku	Online	Na	20000	7 months	It's pretty good, just make sure u Don't have too much backlog
Cracku	Online	NA	1999	Only mocks	I had Time material with me .so i practiced it rigorously and learnt concepts from basics and related all formulae so that i dnt need to remember much stuff and practicing lot of questions with wide variety helps in forming strong understanding and also boosts confidence...after all in my opinion CAT is more about confidence and presence of mind than just Practice and Concepts. So abt the mocks i took cracku mocks are good. I felt bit tougher than cat especially DILR and VARC. But the way they attempt (live attempt) helped me a lot in analysing my mistakes....which question i would have left unattended and which ones i would have picked. And the video solutions are also good for understanding. Overall cracku mocks are good...i have written some IMS mocks last year (tho, it wasn't my serious prep year). I felt ims mocks were also good but cracku way of explanation and questions were more authentic and were created with more understanding of exam. I have seen my friends take mocks of Time, CL, EG. From them i understood TIME is far more tougher and solutions weren't that elaborative and understandable for newbies. But TIME is good for someone who's confident in concepts and cleared all basics. CL and EG were bit on easier side compared to time, ims, cracku
Cracku	Online	NA	12999	4 months	Faculty is good but we were provided with recorded lectures only along with a very few live booster classes. Cracku dashboard and daily targets are good but the mocks are too tough than the actual CAT. I would not recommend this institute. There is no attention given to any student, they won't check up whether you are able to follow or not. There is no study material provided by them, you can only watch the concept videos to understand any topic.
Cracku	Online	NA	15000	6 months	Cracku has great number of questions to practice which helped a lot for me. Their mocks and sectional mocks are very good too. But thir concept video classes are not very thorough and not for the students who are starting from scratch. Faculty are full of knowledge and skills. So yeah their mocks and practice sets are top notch but classes are not the best.

Cracku	Online	Na	17k	7 months	Hi Shweta! You are doing amazing work by helping students. Your prior survey helped me to decide which coaching to join. Despite my sincere effort I couldn't really get a "right fit coaching for me". By this I mean, I think I should've joined an online live interactive coaching but I ended up in Cracku. Although teachers and everything else was great, Cracku didn't work for me. I didn't get to know the basics for my weaker sections like 'quants' and there was a lack of personal touch with cracku. If you're someone who's trying to find right coaching, don't depend on it directly, make sure that you previously clear your concepts and then pay a hefty fee if you want to level up with other kids. Another suggestion, don't really waste a lot of time on YouTube, be mindful and limit your consumption of advices online- there's no "Godfather" out there. Focus on your study. With that said, all the best!!
Cracku and C2C mentors	Online	NA	10,005,95	6months , 4months	For varc c2c is good but for overall cracku is best and their mocks are very good and they are nice replica for real cat , their video explanation and their analysis are good

Educorp consultancy and trainings , Chandigarh	Online	Chandigarh	35000 for online , if online would be 50k	Till interview preparation	Amazing faculty, great study material with proper drill books for every topic, very extensive online test material, plus the teachers here help you even in Bschool selection so that you don't full unnecessary and irrelevant forms as all of them are expensive as well. They also have online and offline options both, you can choose any for your prep.
Edurev	Online	NA	700	12months	It is fully mock test.
Edushastra	Online	NA	9000	7	The faculty is good but the lectures just cover basic concepts and do not solve many problems much in the class. So classes were not very useful for me. The sectionals and mock test should be requested each time you want to attempt and they are only allotted once you score well in topic tests. Overall i would not recommend and i think one can prepare self with the free resources available online and just has to invest in a good mock test series for practice.

They teach you like that only . Even if your basics are weak or you have mastered basic they are too good

Elites Grid	Online	NA	23000	1Yr but I join in batch 3 and it's for 6 months till Jan 2023	Hunny sir Is Best Teacher of Maths and for DILR Gaurav sir is the God of DILR nd in VARC Not very Good but ok ok overall It's good for me but i think because of my weak base I can't able to convert any college this year
Elites Grid	Online	Na	21	1year	Faculties are too good.. Quants faculty (Hunny sir) is best of the best.. teaches each and every point from basic and without hesitation repeats twice-thrice or even more.. LRDI faculty (Gaurav sir) is the wizard of LR & VARC faculty has immense knowledge. The mocks are some at par cat while some are bit difficult to make us ready for any unwanted situation in the D day The study materials provided are enough for CAT doesn't have to refer any books.. all the imp Qs are compiled in pdf and those are discussed multiple times.

Elites Grid	Online	NA	20,500	Batch2 (From April to Jan)	<p>EG is the best option. For VARC, Shazar sir helped to develop the comprehension skills in starting days through assignments and articles. After that they worked on specific types of Rcs one by one (as Art based, literature based, philosophy based).</p> <p>For LRDI, Gaurav sir used to teach basics first and then medium to difficult sets for every topic.</p> <p>For QA, Hunny sir taught every concept from very basic (they explained us the derivation of every concept first, then, different varieties asked in that topic for CAT and OMETS).</p> <p>They solved every question of the assignment in live lectures and even then if there are doubts. They get cleared within a day or two via email. They put efforts more than a CAT aspirant.</p> <p>There test series is also good. It includes topic tests, sectionals and full lengths. And all these tests get discussed in live lectures.</p> <p>They counseled the whole understanding of the syllabus, prep strategy, mock taking, omets and b school admissions.</p> <p>I prepared for CAT2021 too but the learning was nothing and coaching was too expensive in comparison to EG. Elites grid doesn't only prepares you for CAT but also for Mba survival and how to work hard in life for your goals. That's why it's the BEST.</p>
Elites Grid	Online	NA	18000	2 hrs per day	Quant was good and DILR was moderate. VARC was not that good.
Elites Grid	Online	NA	21476	1 year	<p>I enrolled in EG batch 1 after a lot of research. Most of the reputed offline coaching like IMS, TIME were too expensive for me + since I'm from a remote area the coaching locations were atleast at a 2 hr train distance so I was predetermined to join online coaching. I was confused between IQUANTA and EG but finally choose EG which is the best decision in my cat prep journey. EG faculty are like your big brothers....u can ask them about literally anything (study/relationship/financial/literally anything). Quant faculty (Hunny sir), LRDI faculty (Gaurav sir) are just too good. Teaching method is very lucid in pure Hindi, you won't have any difficulty in understanding irrespective of your base in the subject. VARC faculty (Shahzar sir) is average. No one is better than Gejo sir (CL) when it comes to VARC I'm telling this because I'm a VARC 1000 student. I don't know whether I'll be able to crack CAT or not but I can't deny the efforts Hunny, Gaurav sir puts in their classes. Especially Hunny sir (a gem of a person). Anyone who will join EG will definitely notice if u give your 100%, Hunny sir will put his 300%. I'll definitely recommend EG wholeheartedly to anyone (Eng/non Eng). Don't take my words just go to telegram group and ask any ex EGian, you will get the same response as mine. Best of luck juniors</p>
Elites Grid	Online	NA	21000	1 year (depend on the batch one choose)	Amazing faculty

Elites Grid	Online	NA	20,000	1 year approx	<p>I was enrolled at TIMES in 2020 and IQUANTA in 2021 but with one of my friends suggestion I lastly invested my money in Elitegrids with no hope but that is the best decision ever. They are the best faculty in terms of everything whether it is about making the daily schedule or taking mock discussion classes of IMS and CL mocks. They are having more than enough classes that even if we are not working student, we can't complete the classes. They are all the time up for taking classes and even they are the best mentors also so I will recommended students that please don't waste your money anywhere and without any pinch of doubt, join it and you will thank me later.)</p>

Elites Grid	Online	NA	{21000 (With test series) +gst } W/o test series (20000) +gst	March - Present (Batch 2)	<p>I was a TIME student (online) for '21 but couldn't get a desired percentile so I decided to repeat and after a lot of research I found EG and I think this class is very different from usual professional classes. A few pointers on why I recommend them</p> <p>1) It's the best place to join if you're a working professional as they adjust their class timing accordingly timings are 10PM-12PM</p> <p>2) They know these exams in depth their research is phenomenal and trust me when I say this they are better than Time in this case as well.</p> <p>3) They provide their test series and ask you to buy IMS/CL/TIME's test series (any 2/3) and hold regular discussions of them.</p> <p>4) They provide a daily timetable not only for their classes but what revision we should do, which mock analysis we should do and which mock should we take and on which day.</p> <p>5) They prepare you for OMETs as well along with CAT(usually after syllabus completion).</p> <p>6) For QA they hold long 7-8 hours session for assignment discussion of every single question from them which really push your limits and after a while you get used to it.</p> <p>7) Last but not the least they work super hard and it makes you work hard as well you can contact them directly over whatsapp.</p>
Elites Grid	Online	NA	21,500 approx .	12 months	<p>I think this is the best coaching (ONLINE) to believe and invest your money to prepare for the Exam.</p> <p>Positive :</p> <p>1. Hunny Sir (Quant) , Shahzar Sir (VARC), Gaurav Sir (LRDI) all three are very supportive and empathetic. And excellent teacher in their respective subject.</p> <p>2. They literally spoonfeed you everything related to all MBA exams including CAT. In short one stop solution for MBA preparation.</p> <p>3. Since it is Online Coaching, so it is Affordable also. It costs me around ₹21,500 approx. (With Test Series Variant), Unlike T.I.M.E (Offline) which asked me for ₹1 lakh for fees. But there is a catch in this, see point 2 in 'Negative' Section.</p> <p>4. Hunny Sir arranges all Materials, test , mocks etc for preparation. There is no need for the student to research about it.</p> <p>NEGATIVE:</p> <p>1. If you are SELF-DISCIPLINED then only you can succeed in this Coaching since it is online it is upon you whether to take class or not. Nobody going to push you to join the class everyday . If you are serious, then coaching is Triple serious about you.</p> <p>2. Yes ,it is true that the Coaching fees is ₹21,500 (with Test Series Variant) in my batch of 2022 & there was no Hidden fees after that. But have a room for further expenses in mind already, which are Mock Test Paper, GK notes etc. of other Institutions. These further expenses are not compulsory, it's 100% depends upon you. In my opinion you should follow Hunny Sir blindly for such case</p> <p>In CONCLUSION, This Coaching worth your Money. If you are seriously preparing for MBA exams, you will not regret the joining. But remember the rule. Noone gonna push you, you have to SELF-DISCIPLINED while preparing. THANKS A LOT.</p>
Elites Grid	Online	NA	21476	One year	<p>Everything is top of the class but you might have little bit of disappointment with VA faculty. Other than this they give 100% of their efforts to give you a little extra push..</p>
Elites Grid	Online	NA	Around 22000	10:00-12:00(night)(Recordings are available the following day)	<p>The best part about EG is it is run by only three faculties and only three batches are held. The amount of time and hard work they put in is just mind boggling. On weekends, Hunny sir (Quants faculty) takes around 7-8 hours of session in the last months for revision of every single topics, mock schedule is given so you need not to do something else just stick to the process. Also fees isn't fancy so money won't be an issue for every type of student. You can ask doubts during live sessions plus also can mail them. They are quick to respond. As per my experience, you won't just get the conceptual clarity of each and every topic but also true mentorship in every phase of your preparation. If a student isn't doing well in preparation, he/ she can easily reach out to them and timely motivation sessions are also held to boost up your preparation. I would highly recommend EG to all the new upcoming aspirants as the learning you would be getting is onto some different level.</p>

Elites Grid	Online	NA	21000	1 year	Best coaching. All three teachers are best. Basic to advanced , they cover all aspect. Easily accessible teachers. Live discussion of each assignment, mocks(even of simcat, ims). The only problem is that they lack in human resource means only three teachers are there so sometime, they will not give extra assignment because they will not able to manage discussion of these extra assignment. Overall best coaching, by end of September they covered 600 sets in Irdi and 500 RCs atleast. Bonus point if you have bad in quant, then honey sir(quant master) will make teacher of quant. He is God of quant.

Elites Grid	Online	NA	21476	1 year	Faculties are excellent at their knowledge and effort. Each penny worth of it
Elites Grid	Online	NA	21000	1 year	The best coaching hands down. And its not on any promotional sense...as i will be laying down few cons as well in the end. But the faculty of Irdi and quants is exceptionally good. They know where a person who is weak in that section can go wrong and thus convey each and every concept in such a detailed manner that even if your not from engineering background by the end of the syllabus you wont feel a difference between you and an Engineers ability to score Con - just one con the verbal faculty is not that amazing no doubt he has an amazing knowledge of the section but the convey part is not that great and the class becomes alot boring without any enthusiasm. But honestly speaking the contents they provide even for verbal are perfect and if a person just does those assignments he /she is definitely going to be alot more confident in the end.

Each live class duration was on an average 2 hours and they teach really good. they form a brotherlike connection with the students and they are really good at what they do. they have 3 faculties one for each section. Quant faculty 10/10, VARC and DILR faculty 7-8/10. They make students talke mocks and then discuss in details those mocks, like how one should have ideally attempted, where one could use some shortcuts to score ahead of others, which questions should have left etc etc. Overall, happy with the purchase
Elites Grid	Online	NA	21000	10 months	worthy
Elites Grid	Online	NA	22500	1yr/Until the last exam	Faculty for QA and LRDI are extremely good. The methods and few tricks are very helpful. They work hard and will also make us put maximum efforts. VARC is also not bad but the problem is improvement in VARC mostly depends on our preparation rather than complete faculty efforts. So faculty is good just that we need to adhere to the process he suggests. The concept of study material here is nothing but the teachings and lots of practice questions. Assignments are exhaustive enough to cover maximum variety. Concept revision takes place number of times so that we don't forget. Mocks are good enough for practice. Discussions do happen regularly. 10 full length mocks, 15 sectionals each and many topic tests are provided. These numbers are not fixed, they do provide extra tests. 3 issues are, teachings are more Hindi inclined. So if student can understand hindi then should not be an issue. And the classes happen 10pm to 12/1am on weekdays and long sessions in day time on weekends which more suits working professionals. As said previously VARC is dependent on our preparation and if we don't follow the routine that faculty suggests, we end up cursing the faculty for not scoring marks.

You can just buy extra mocks from ims or time 2-3 months before cat otherwise you are sorted.
Elites Grid	Online	Na	21000	One Complete year till the last exam.	Earlier I joined time, but they didn't even completed the syllabus. Than I joined elitesgrid through my friends reference. And I am glad that she refer me this institute.
Elites Grid	Online	NA	21000	Jan- last OMET	Your only target in Elites Grid will be to work hard than faculty because the level of dedication and hardwork they do is exceptional. 6 lectures in week and timings are from 10pm- 12am Extra longs sessions on sunday which may extend to 8-9 hours Weekly planing of every minute things QA is so smooth and it it's taught from the basics to every possible approach In QA and LRDl rather the approach and mindset one should have is developed Anytime EG should be your first and last choice
Elites Grid	Online	NA	22500	I joined their second batch which starts in the month of April	Faculties work harder than the students. They do everything possible to make sure the students end up scoring good marks
Elites Grid	Online	NA	21476	1 yr	All materials are provided online ,full support from teachers, every doubt get solved, maximum classes,long sessions,time to time guiding sessions,on an all best online coaching

Endeavor Careers	Online	NA	Around 64000	Around 2 years	Please let the future CAT aspirants know that they shouldn't join this institute. They charge a lot and don't pay much attention to you.
Endeavor Careers	Online	NA	35000	Around 7 Months	1) To be completely honest, Endeavor Careers have excellent teachers, but the management and support staff are terrible (they are just money minded). When our course ended, just after few days, they deleted all of the recorded lessons (why we suprised as it was not mentioned anywhere when we taking admission) 2) No doubt Teachers are excellent, but they don't properly explain things (it is like, that you should understand that particular concept in first attempt, if we ask for explanation, they will deny or they will not agree on that) I used to routinely attend online classes for 4-5 months, but after many such awful experience, I stopped.. Conclusion - 2 out of 10 (STUDY MATERIAL - IS WORST) (MOCKS - ARE GOOD)
Endeavor Careers	Online	NA	35000	From oct 2021 to march 2023	Everything is good but it can be more better because online coaching there is a lot of barrier of asking doubts and even some topics if not understood it really becomes difficult. Doubt solving session are being organised on regular basis and even doubts can also be asked in telegram group. But they never opened for offline coaching and said if you want join offline than have to pay 15k extra and that too they started from July 2022 when most of the syllabus is completed. So they should have cleared these things at time of admission. Overall it was good, material vise, test portal and everything is actually good. Faculties need to improve little bit otherwise it's good. Few things should be improved a bit but still they did a good job.
Endeavor Careers	Offline	Ahmedabad, Gujarat	50,000 /-	9 Months	Faculty, study material and adminstration staff is of top notch quality. I think the quality of mocks could be improved.
Endeavor Careers	Online	NA	30,000	4months	Please don't go for online lectures..be it any classes, maybe the teaching is good or acceptable, the study material is based the books they publish, its good if you want to study but if you are looking for any spcific author based based book than you might be disappointed. Also, for the later on process (online)...like contacting the faculty, clearing of doubts related to study or college admissions or maybe entrance exams, they are not solved and you just get demotivated and also you waste your time...like how I did.

Endeavor Careers	Online	NA	23000	4 Months	Worst. I would recommend children should prefer new coaching classes like cat king of cet2cat or Rodha on YouTube.
Endeavor Careers	Offline	Ahmedabad	50,000	11 months	The institute branch here is itself going through a lot of changes, most of the faculty left for other institutions and the text portal was also recently changed which gave only little clarity to the team itself. There was a lot of mess that was happening, which is why I would suggest IMS, I tried their test series which is really good along with their course material.
Eptitude (Mentors Capital)	Online	NA	30000	16 months	Limited students per batch (5-6 students) Multiple class timings available according to students comfort. All the faculties are IIM A and IIM B passed out with 15+ years of experience in guiding CAT and GMAT Aspirants. Faculties are available to clear doubts immediately. 1-1 guidance on how to analyse mocks And mentors are highly experienced in guiding throughout the process even after getting shortlisted (conversion ratio is the highest compared to top institutes as per my knowledge)
EQL CLASS	Offline	Pune	50000	Not fixed changed every week.	The faculty, which in fact is only one teacher is very good at teaching and does have knowledge but is very very lousy. They said that they will finish the syllabus by August mid, but guess what it's still not done. There were very few practice questions during the classes. I am now in a position to fill my knowledge gap by doing all the work by myself where I need to take as much mocks as possible rather I am learning now which is hampering my performance and my confidence is at all time low. Also the coaching institute is no more than a place if you want to do time pass... It's just not it. No one really cares about your performance or your concerns no doubt solving sessions. Just fake promises. There are a lot of other things as well but I think this paints the picture very well.
Erudite	Offline	Kolkata	50000	18 months	Faculty was nice and gave personal attention as well. We were given personal mentorship always and one on one doubt clearing was also available. Verbal teachers were good. Quants, some were good while some were not. The level of mocks were a little more difficult than actual CATs. We were given 20 mocks in total. The study material is sufficient but one may need to refer to external sources as well.
Erudite	Offline	Kolkata	65500	18 months	Faculty is quite good

Gradsquare	Online	NA	23k	9 months	Excellent faculties, good guidance. One on one mock sessions to see through the problems you are facing and then provide solutions for that.
Gradsquare	Online	NA	30000	8 months	No other coaching can give the kind of individual attention this coaching provides. The teaching pedagogy is also very good. They provide testfunda mocks. These mocks are really under rated because these mocks are the closest to the actual CAT. I know this because I have taken all the major test series mocks. Above par study material. Their USP is the individual and personalised attention be it for CAT mocks or interviews.
Gradsquare	Online	NA	23000	6 months	You can just join for the faculty. They are too good especially varun sir. The quality of mocks and the session for mock analysis with the mentors helps you build the confidence. One bonus you'll get is you will be allowed to sit for one to one mock analysis session twice with the mentors. You can approach them in WhatsApp too and they'll not just provide the solutions instead they'll make us do the problem after explaining.
Hitbullseye	Online	NA	25k	I joined in June.	Some of the faculty is great. The chapter wise tests really help to grasp the concepts well. Mocks also are good as they have helped me in identifying my preparation gaps as well as my strengths

HR Mentors	Offline	Nagpur	Rs 42000/-	1 year	VARC is taught by Sushobhan Sir and his way of teaching is good he has a lot of experience in teaching VARC so VARC is good. Now let me come to the point why I won't recommend you HR mentors is one of their main faculty and director(Rushab Sir) he is very arrogant and rude and I did not like his teaching style at all. First of all I did not understand a single concept taught by him, when he teaches it feels like he is teaching to himself and doing self revision also his teaching speed is fast. Second thing is he shows a lot of attitude while solving your doubts let me tell you what his concept of doubt solving is that you tell me the exact step where you are stuck and he will help you from that step only, he will constantly tell you during lectures that please don't bring silly doubts to me because silly doubts is a waste of his time according to him and a student like me who is really weak in quants have a lot of silly doubts and those doubts remained unclear. I was already very weak in quants and he destroyed my confidence in quants section which affected my actual attempt as well. And also he teaches LRDI as well so I did not understand a single concept in DI as well To conclude there are a lot of issues in his way of teachings. Whatever questions I was able to attempt in quants section was because of Deepak Sir who also teaches quants and LRDI. He is very humble and polite and will clear all of your doubts. All those silly doubts of mine were cleared by Deepak sir only and his way of teaching is very good he teaches from absolute basics if I had learned all the topics of quants from Deepak Sir I would have been able to score a much better percentile in quants section but all the major/important topics are taught by Rushab Sir and hence my quants section and overall attempt was heavily affected. If you have read this far so I'm assuming you are from Nagpur and are planning to join a offline coaching in Nagpur, my honest suggestion to you would be please don't join any offline coaching in Nagpur they all are bad you will waste your money and time just like I did , instead join an online coaching, believe me online coaching are the best you will save your time and hard earned money and most importantly their is a huge difference in the way of teaching of the people who teach online and the Nagpur based teachers there is no way these offline institute teachers can match the level of teaching which is available in online teaching.
IMS	Online	Na	36000	5 month	It was. Not good for online
IMS	Offline	Surat	49000	5 months	The online content (Mocks, questions) is great also the questions in offline content are also great, but the way concepts are explained in class as well as textbook are just not enough to build an overall conceptual clarity. Faculties at IMS Surat are not at all good except for QA. Time devoted for each topic is also very less and thus does not ensure overall coverage of the topic.
IMS	Online	No	25k	4 mnths	Its good classes for quant especially lot of tricks are being taught,for dilr however it would be good if u get iquanta online course i would suggest vivek sankaran course its the best, varc is good for ims, also simcats are good
IMS	Online	NA	24000	5 months (i joined late, otherwise the program was of 12 months)	I really like the institute, and highly recommend the aspirants to join IMS. A very structured approach to learning, amazing faculty, and lots of masterclasses and workshops are conducted to maintain pace and disseminate useful tricks/info via such sessions. I advise students to take up online programs rather than offline because in some places the center heads of regional IMS coaching might not follow the chief IMS timelines for topics, mocks, etc. Online batch directly connects the students to the Chief faculties at the program's core. Also, myPLAN sessions with faculty cover areas like student-centric schedule development, mock analysis, general doubt-solving, the application process, etc. There are telegram and whatsapp groups for communication and doubt solving, plenty of good questions and a very good approach which makes the student to be regular with studies. Highly recommended, hope this helps.
IMS	Online	NA	57000	September 2021-March 2023	IMS needs to improve its quants and LRDI study material tremendously, they need to sectionally divide the problems in difficulty wise. Also, i feel that the quants questions aren't enough. My verbal faculty was very good and so is the study material, but in quants & LRDI I felt that they were only focused on teaching people who were already good at it, as a non engineer I faced a lot of difficulty in these classes. Their online question bank + mock tests is something that I really appreciate. Also, only 7 mentoring sessions aren't enough at all
IMS	Offline	mumbai	46000	2½ months	not good don't recommend. they brush the concepts, especially QA
IMS	Offline	Durgapur	35000	7-8 months	Faculty is very friendly But the teaching quality is way below from what I've seen in some other coaching (online) , the structure which is followed there is - first they discuss a little about concept (like only few basic concepts and formulas) then they solve questions from that chapter. For me classroom program was definitely not worth it , I don't get the concepts and then I have to refer to online free youtube videos again. Apart from the classroom teaching , the online resources provide is very helpful , the mocks are of good quality, their analysis and solutions is also very good , they provide online masterclasses and various practice questions and much more. So in my opinion, it would've been better if I would've just purchased online resources and took coaching from elsewhere.

IMS	Offline	Pune	44000	March to Aug (6 months) syllabus was completed in 6 months but revision lectures are still going on.	<p>My experience with IMS was excellent, they have experienced faculties and are guiding us throughout our preparation. They covered portion for each section really well.</p> <p>They also have a facility called 'my plan' in which we can schedule a meeting with faculty of our choice for personalized 1 to 1 session (7 my plan session are available we can use them as required).</p> <p>I think the best part about IMS is their online portal. It has basic concepts videos on each topic with practice questions.</p> <p>It also conducts many session with the top b-schools students, working professional from various fields so that we can get an idea about their work profile.(I have not seen most of them , planning to watch them after CAT)</p> <p>We are also provided with 15 live mocks in addition to 20 take home mocks and actual cat papers from 2017 - 2021(there are sessional tests as well as mocks for other exams)</p> <p>Overall my experience with IMS has been great, I have not experienced other institutes but from what I have heard i think ims is one of best.</p> <p>Hope this was helpful and keep up the good work</p>

IMS	Offline	Navi Mumbai	40,000	Joined in Dec 21 for cat+non cat program.	<p>Worst decision ever.Faculty is good no complaint but the pedagogy of ims is not good. When I joined in December 2021 they told lectures will be going on till Maharashtra Cet but they completed the syllabus in the month of may this year and since then haven't conducted a single lecture in offline mode.Some workshops which you can count on hands have been conducted but all in online mode whereas the fees for offline is at least 10k less.Having classes going on is a crucial step as you are in touch with your studies and meet your faculty but this has been pathetic experience for me also their modules are not well structured.This is my second attempt at cat,earlier I had done through time classes and managed to get interview calls from new and baby ims this year as things were getting normal I decide to go for offline coaching and hence had to go for ims as time hadn't opened their offline coaching.</p> <p>To end this please don't suggest anyone ims for coaching.Only mocks are good.</p>
IMS	Offline	Surat	56000 + 18% gst	6 months	<p>Overall a big no</p> <p>Faculty : they are very professional and they just dont care about the personal doubts of student even they share stories of other students in class without taking name that how the student is not performing well and the doubts asked were not appropriate so they just didnt give much attention etc and they are least bother ..</p> <p>They dont have well functioning computer labs .</p> <p>There mocks are leveled up , and any non engineer background student would obviously score poor . I gave many time but my score never went above 20 and it went -7 as well .</p> <p>There study material also has same its mixed up level quesbank means there is no ascending level rise to practise the ques are mix moderate easy and further hard.</p> <p>One would find many difficulties in understanding their plan .. the mentoring session which they provide is a big scam . They give u a schedule which is personally according to u made by your batch mentor but your schedule will be same as other 500 students in that center.</p>

IMS	Offline	Chennai	37000	1 year	IMS chennai(Anna nagar) centre is best as for as I have known the majority faculties are amazing (except few) we have classes every alternate days and can choose your convenient batch. We have doubt clearing sessions on every Saturday, Other than your regular sessions. The centre is open from 10-8 almost every day. You can even stay in there after class to sit and study among your friends. They have computer lab facilities for students who don't have lap or system in home to practice. We have a mentor who is amazing and will give excellent career advice. And last the ims mocks are the best the computer AI compares your test strategy along with the 90 plus percentilers and also predicts how much we would have scored if we covered certain topics. As far as my experience it is good. (by the way I am studying currently in this centre so this is the accurate information on my centre)

IMS	Online	Kanpur	50000	1 year	Faculty here is very supportive and is willing to understand the anxiety of an aspirant. QA is taught in detail and pyq are solved. IMS	Offline	Mumbai	45000	There are weekdays and weekends batches so individual I can choose according to there preference. In weekdays 2hrs every day and weekends 4hrs a day.	I don't know about other IMS centre but the centre I was in had really good teachers but only thing was not good was that teachers were not available for doubts clearing and nor IMS gives fast doubts clearing session whether it's online or offline. Other than this, study material is fabulous as they have ample amount of questionnaires, sectional tests, module wise test, actually mocks, easy version of mocks and lot more. All of this is available in online page. They provide books too module wise. Rest is good. Would recommend others, considering the cons I mentioned, other things is really good.

IMS	Online	NA	34000	13 months	IMS online coaching was decent. we had regular classes for Quants but what was neglected was the DILR section and verbal ability classes were 70% effective. Faculty that was allotted was kind of fine not so better in comparison to their national/chief mentors. Mocks are similar to other coaching institutes like TIME but their VARC is really tough and extensive. Study material in regard to VARC and QA was considerably good what they have to work upon is the DILR material. Overall my experience with IMS is pretty fine. What I feel is that they should really do something about DILR section.

I find extreme difficulty in getting my doubts solved mainly quant and dilr. I feel this is the major drawback of joining online class. I even tried to mail higher authorities and contact nearby centre but they reluctantly replied we are not responsible for your doubt solving which is not good practice being a good institute
IMS	Online	NA	35000	9 months	Mock - 9/10 Teaching - 7/10 Guidance - 9/10 Portal + Material - 9/10 Doubt/Queries - 8/10 Overall for the price - 8/10. More interactive than TIME, Better mocks than rest, MOCK difficulty more than other-equivalent to TIMES Very good option Except CAT OMET - 7/10
IMS	Offline	Ahmedabad	65000 ₹	The course was completed in 6-7 months now we are having workshops	It's the first time ever i just feel that i had made a right decision of joining ims I am not saying this because i am a student of ims but by the experience i had received from it their doubt solving personal sessions , mentoring, teaching methods,online app is so wholesome we don't have to see for any other material or mocks everything is just perfect in this coaching. And especially the mentors are so friendly they understand your problems and give attention to each and every student individually whether he/she is weak or a very bright students "All are equal".
IMS	Online	NA	13k	3-4 months	I am glad I have chosen IMS online coaching because I have heard from friends that some centers here in Hyderabad had good teachers and some didn't and I didn't have go searching for them. Online classes had some of the best teachers, some of them even working as Chief Mentors and are very familiar through Youtube videos. They took time in explaining concepts very clearly and be patient with non Math students like me. I am very satisfied with their Coaching. The study material which I received through post was very good too.

IMS	Offline	Kanpur	50,000	1 year	The faculty is really amazing, especially of quants and VARC. Lrldi faculty is okayish. The mocks are extremely helpful and are aligned with actual cat papers . Study material is good for understanding basics clearly . The one thing that i loved the most is that the students enrolled per batch aren't too much and so you get fully focused attention and the faculty here is extremely helpful. Never does it happens that a doubt goes unclarified ! Would personally recommend to join an offline batch if someone's looking to start from basics and online if one is already clear with the concepts and just needs a revision.
IMS	Offline	Delhi	43k	July'22 - march'23	They quite good with the management and their student counseling one to one mentorship helps in developing good plan for one. I wish I would have joined the coaching early around feb- march for better preparation and performance. They are over really very good.
IMS	Offline	indore	45k	12 months	Everything Best
IMS	Online	NA	40000	1 year	Awesome
IMS	Offline	Indore	42100	15 months	Over-all experience with IMS is pretty well. Talking about the indore center faculty they are well experienced. Helps students to understand every topic is simple way. Rather than that they also provide one to one doubt clearing session and personal mentoring session as well. Also provides IMS indore dashboard along with IMS India website for better practice questions. Talking about mock test and book material they all are good. Would suggest all to go with IMS.
IMS	Offline	Ahemeda bad	60000	8 months	I can say that all the faculty members are good enough to help aspirants throughout the preparation and also they are available for doubt solving. IMS mocks are always have a top notch in the Mocks Series. Study material is better than any online coaching.
IMS	Online	They taught from Andheri (Mumbai)	15000	6 months	I'm satisfied by only Quants. Had to refer Cat2Cet for Verbal section. DILR on my own. Won't recommend IMS
IMS	Offline	Chennai	40000	One year	Teacher was great in the beginning but later months there were no classes held properly, syllabus not yet completed, i started during March
IMS	Offline	Surat	There fees is around 61000 ₹	12 Months	This IMS Surat branch has 3-4 faculty who are very good in there respective subject but there is QA Subject sir is too good with there way of teaching so easily understandable, very motivating, infrastructure is also good with if you get to take mocks there is sufficient PCs.. etc. Overall it is good coaching for future CAT aspirants who are live in surat.
IMS	Offline	Jaipur	60000	11 month	Faculty was Good.. Except I feel how they approach VARC saction could be better... We had ample mocks... For study material I felt that number of DILR sets were on lower side And I felt that one to one setion (My plan) was not been taken seriously
IMS	Offline	Gorakhpur, UP	43000	Until cat 2022 and gdp prep after that	In Gorakhpur city it is the best one could get. I joined the institute after thorough research, the faculty is good but some time after full submission of fees the faculty went off with their whole moto of getting every student a nice college and instead of promoting the student to do better the director says he has a backup plan for every student(that better be good otherwise a career would be ruined). I joined the institute basically for peer pressure so that i could prepare with whole of my attention but an online medium would have suited me better. The faculty there does not teach you any kind of tricks rather they focus on developing your logical abilities. I thought that's a good thing and it worked for me as well but as the cat exam is approaching i realize that tricks are also necessary. A suggestion to Shweta Di from my side would be to rank all the offline institutes based on the reviews so that if people can move to other cities for preparation they will instead of wasting their precious one year. And a pointer would be there is no permanent verbal faculty in IMS gorakhpur. Quants faculty is good, again no tricks. DILR is the same as well but the delivery is not so good for dilr faculty and developing your tricks depends on you so buy a good book besides study material and work with concept as well as tricks. Give your mocks timely precisely 1st mock in may. Good luck for your preparation. Wow i wrote an RC
IMS	Offline	Delhi	40,000 INR	4.5 months	The faculty and material provided is good. They also provide access to their online learning portal, which has recorded lectures, mocks, sectionals, plus strategy formulation guidance videos. The only issue would be that the level of difficulty of IMS mocks is less, when compared to the Mocks of TIME coaching. Although IMS mocks are still at par or a little higher in difficulty in comparison to CAT exam.

IMS	Offline	Ahemdabad	49,400	4 months	Faculties are helpful and knowledge too. STUDY MATERIAL WAS MORE THAN ENOUGH FOR A SERIOUS CAT ASPIRANT AND GOOD NO. AND TYPE OF QUESTIONS WERE THERE IN THE STUDY MATERIAL. MOCKS ARE ALSO GOING ON IN A GOOD PACE. 1 MOCK PER 15 DAYS . Talkimb about Faculties , for VARC our faculty was not so much knowledgeable or he doesn't know how to express them maybe but I was not satisfied at all in their study pattern of VARC. TALKING ABOUT QA the faculty taught us well but only the basics of each topic there was less of cat type questions covered . Same in Dilr sir taught us well but there wasn't more of practice from their side. TO CLEAR YOUR BASICS ONE SHOULD JOIN COACHING OR ELSE IF YOUR BASICS ARE CLEARED GO FOR SELF STUDY I WOULD SUGGEST AND MOST PROBABLY BY SELF STUDYING SERIOUSLY FOR 4 5 MONTHS ONE CAN CRACK THE EXAM.
IMS	Offline	Ahmedabad	45000	8 months	Faculty is best at ims ahmedabad they provide us full material which was provided to all ims students across india. In the beginning they started with basic as CAT comes near they are providing us simplified session, super session, master class of particular topics across 3 section. Best faculty is vipul sir who provides me every 15 days time table because I cant manage my work with cat that's the best point of ims ahmedabad they provide individual plan to each and every student and give us feedback on our each and every mock to which topic should you improve first. From my side to IMS AHMEDABAD
IMS	Offline	Kolkata	53000	4 Months Regular Class + 1 month masterclass	Faculty- great, understanding and helping. Mocks- accurate benchmarking, good question level for cat, additional mocks available for non-cat exams. Study material- Module books-excellent, online portal material -okayish, could be better.
IMS	Offline	Delhi	48000	8 months	Some faculties are good but some are not and a lot of mocks and study material is available but the way of teaching in the class is not very good and the app they provide is also not very user friendly and descriptive where to find what. Batch of students are moderate not very large but delivery of the lecture in the class is not very satisfactory .
IMS	Offline	Chennai - Annanagar	40,000	1 yr	I really felt it's awesome coaching centre.. Bcs for frst attempt i took coaching in TIME Institute, but i am not satisfied with them. Nxt this yr i joined IMS, their faculties are really good and friendly. They guided whenever i am demotivated or felt low. Their mocks are very standard. Study material is given as modules from basic topic to higher level topics in order. In that module itself their will be lot of practice sums and past cat qns. So it will be easy to practice cat level sums regularly. I will blindly recommend this institute.
IMS	Offline	East Delhi	45k	9 -10 mths	Found the material quite decent for DILR and QA in terms of concepts, questions and difficulty level. However the RC level in IMS books was not at par with cat level. Mock tests are very good and have features like AI powered sets for dilr and replica ques of similar level in quants. You get 40 mocks. There is an ample of material for practice questions for the 3 sections along with a timer and helps you stick to the time. However Sectional tests are quite a few in number, just 10 for each section. Faculty is very helpful and attentive to every student in the class. Your doubts get cleared through telegram/whatsapp groups or the teacher himself.

IMS	Offline	JAIPUR	60,000	18 Months	<p>About Faculty I think they are having the best faculties for every subject and there are multiple teachers in order to understand stuff from the teacher you want and teacher are very kind and always ready to help out students.</p> <p>About Mocks The mocks that IMS makes are hard but very helpful because learning to solve that hard question really needs very crystal clear concepts and by learning to solve such questions we learn the basic concepts very easily helping to reach 90%ile very easily in real CAT PAPER</p> <p>About IMS PORTAL the IMS PORTAL is made very user friendly and contains a lot of learning material for free for offline enrolled students and those national level faculties of IMS teach the concepts in very simple manner so that an average student can too learn it very simply</p> <p>About Study Material I honestly think that no extra Material is required after receiving 5 modules made by IMS experts. Because they comprises of very selected logical and conceptual question from past year papers and thus are highly sufficient for any kind of student</p> <p>OFFLINE v/s ONLINE I will prefer every student for offline classes if possible because still for many its very effective and efficient than online</p> <p>CONCLUSION</p> <p>FIRST OPTION Mode offline, from best institute and best faculties depending on the city</p> <p>SECOND OPTION Mode online, if you have to pay great opportunity cost for it</p>

iQuanta	Online	NA	21000	11 months	The faculty was nice. Mocks were good , study material could have been better and so is the student dashboard. Overall a very good online coaching compared to others .
iQuanta	Online	NA	27000	8 Months	LRDI & QA is too good VARC ain't that good Mocks are average Sectionals are really good Study material is decent But Practice Sessions has to its USP!
iQuanta	Online	NA	25k	Jan till Cat	Faculty is good, doubt solving on Cat group is one of the best. Syllabus is covered in 2 parts- 1)Online video lecture. 2) Application classes (Solving sums). Quants and Dlr are Great, Varc is good. Mocks could be avoided. Study material is CAT or can say slightly above CAT level.
iQuanta	Online	NA	25000	Feb- nov	Faculty - normal , teachers are goob but not very awesome. , Section wise - varc teaching was worst, no basics. Quant - average , only good for engineers , Lrdi - good. Mocks - average - mod level . study material - normal, no formula book , no hard material, only copy paste ques videos of so many years. Overal rating - 6/10
iQuanta	Online	NA	34000 (2 years)	2	Quality practice questions ,quality teachers but lack of personal mentoring session .
iQuanta	Online	NA	24000	9 months	Overall good experience. Pros: Excellent faculty members. Multiple revisions and the best part is instant doubt solving in the Facebook group. Regular practice sessions are conducted. The application classes is a unique feature and is extremely useful during revision when you don't have to sit through long lectures but want to go through concepts very quickly. They conduct regular interactions with seniors who had cleared CAT earlier which have been helpful too. Cons:Sectionals provided by them I'm not so happy with as they kind of seem to deviate from CAT pattern(like 5 4 question sets in LRDI instead of 4 sets). Also the difficulty level too seems to be not at par with CAT. About their mocks I cannot comment as I have been taking SIMCATS and DASHCAT . Also the sectional interface is not so good. Final verdict: Coaching and method of teaching is very good with excellent faculty. But may have to take another mock series.
iQuanta	Online	NA	20000	10 months	In a simple word Not So Good. During May lead faculty resigned and subsequent faculties were not as good as previous. They provide only online materials. But in initial days you require physical material. If you want to join coaching career launcher seems best from their mocks and daily dose point of view. They provide excellent resources.
iQuanta	Online	NA	25,000	12 months	Good ,supportive and competitive community of aspirants Great faculty and their doubt solving team is incredible

iQuanta	Online	Vasai	21000	9monthd	Iquinta has unique way of teaching through Facebook session.. classes are interactive. you are not getting bored in lec. But I think there is scope to make class lec. In more oraganize way(FB)..so In this prize range I gave 4*/5 ..
iQuanta	Online	NA	Around 24000/-	I joined the last batch which started from July end. Syllabus covered within second week of October. Also they have batches with longer duration.	In one word just amazing. Apart from live class their application class is cherry on the cake. LRDI Faculty : Sajjan Barnwal Quant Faculty : Jeet Singh , Abhishek Leela Pandey, Sajjan Barnwal VARC Faculty : Abhishek Leela Pandey, Jeet Singh. Mocks & Practice material is also good. They have 24x7 doubt solving facility.

Learn4Exam	Online	N/A	2340	50 days	The crash course was good but it's only recommended if you have a really good basics of quants and if not then go for regular courses. MBA Guru	Offline	Delhi	40k	Sept 2021 till the time of interview s/gd	Credible faculty. Provision of ample study material (including links to class recordings) and mocks/STs. Complete coverage of CAT syllabus along with online classes for OMETs. Backup classes' schedule comes in every week and one can attend a class 'n' number of times with different faculty teaching different batches. Other workshops such as that on mock score improvement, mba speciality guidance, etc. Enables scheduling private sessions with faculty of choice. Batches can be switched with ease in case some other faculty seems better (based on one attending some other faculty's backup classes). Query redressal done each time smoothly.
MBA Guru	Offline	New Delhi	50k	till now it has been 4 months (till oct)	so I'll try to rate first (out of 5) and then I'll give my feedback: study material - 4 mocks - 1 faculty - 4 So the best things about MbaGuru or rather I say the only good thing is it's faculty, the teachers are not teachers they are mentors, whenever i have any doubts/issues regarding anything literally ANYTHING, I just text them and they are at it (beside a few "teachers" who just don't know how to teach and just here printing money like anything obviously i wouldn't like to name them) but yeah if you'll enroll early, you'll get great mentors. Now, regarding the mocks, they gave shit mocks like every person I know who give their mocks is always ranting about them and yes they are like that (no pattern no nothing) kisi mock me only arithmetic kisi mock me only algebra NO SET PATTERN. All in all, MbaGuru is good just bcs of it's mentors, nothing else. I'll always prefer anyone to not join any coaching institute and just prep yourself as at the end you'll have to study yourself and alos everything is available on the internet, so why to waste momey.
MBA Guru	Offline	Delhi	50k	From May 22 to April 23	I really liked the content being taught in the classes. The batch size is limited to 25-30 and 3 hours session. We discuss the concepts, solve some examples and solve a dpp in the class only followed by its discussion. The mocks are a little bit on the easier side as compared to other institutes, but really well designed having different flavours and patterns as well. Yes not everyone would like the overall pattern with a hybrid of both online and offline pattern but I found it to be really suitable and effective for me .

But fir quants I can hands down tell you that it is the best coaching out there. Never had any math teacher made more sense than Arun Sir. The way he explains the concepts, the way he explains how to calculate faster, how to approach what to not do is just amazing. I also did his 50 must do logical reasoning and DI sets from the coaching and they were again amazing. I also studied quants from rodha just to add the icing on the cake and he explains concepts very well too. But I am a literal fan of Arun Sir after watching his classes. The faculty is highly professional and are well-versed with the curriculum, that helps the students in explaining each concept in detail. They provide well-planned mocks for different MBA exams- they provide sectional mocks for different concepts explained in their class as well as full length mocks for students' practice. The study material is excellently written incorporating all concepts and shortcuts for different approaches to handle the variety of questions in all MBA exams. The portal of studybuzz is well developed with no bugs and the best thing I found about the portal is their doubt forum which adheres to all the doubts asked by their students , their response time is max 15-20 mins. Which saves a lot of student's time. The portal is also well-structured with online recording of their classes so that a student can revisit their site in case they missed their class, they provide tests in easy, medium, hard format for student's practice after they have explained the concept, a students can attempt these tests which covers almost every question related to the topic discussed in their session. They even provide short notes and time table for each MBA exam that enables a student to prepare in an organized way and without haste that will surely land them in a good MBA college.
Studybuzz	Offline	Varanasi	25000	12 Months	The guidance I got from Saurabh & Anubhav Sir was really very helpful for my preparation for the management exams and every sort doubts were being cleared by them in their doubt sessions and the content provided was more than enough to help you out in every single topic in any subject. I still do follow their free but literally helpful videos and content provided on YouTube. All I want to say that joining StudyBuzz was the best decision I took for my management exam preparation.
Studybuzz	Online	NA	25k	12 months	Amazing Faculty, Absolutely satisfying content.
Studybuzz	Online	NA	16k	1 year	Saurabh Sir explains everything in a great way, explanation was too good and study material was also too the point.
Studybuzz	Online	NA	25000	12months	It was a great learning experience with a study buzz with great faculty. Everything is under one roof. Covered everything with detailed notes. Took care of mocks and practice exercises for every Entrance exam. Overall a great platform for mba entrance exam.
Studybuzz	Online	NA	25000	7months	Faculty was the best ,they provided the knowledge in the most detailed manner from basic to advance in steps,very helpful whenever you approach them,my favourite part of the course was after lecture case studies.study Material was helpful and brilliant .Overall my experience with studybuzz was amazing.
Studybuzz	Online	NA	25k	12 months	The mentors are so supporting. They focused on overall development. If we have a doubt they are just ready to solve them and also explains different ways and shortcut for quant section. I must say they are amazing mentors I have ever met in my life.. thank you study buzz for motivating me and supporting me.
Studybuzz	Online	Na	25000	12 months	It was really good. Teachers were extremely helpful and content was really nice too. Overall, it was a good experience.
Studybuzz	Online	Kolkata	18,000	12 months	I joined studybuzz pendrive course and live classes later on. The classes kept on track. Initially I was facing difficult in quants & Irdi, but I saw serious improvement. But the content is too much, sometimes it becomes difficult to finish it all.
Studybuzz	Online	NA	25000	12 months	It was perfect. From good study material, detailed videos, competitive mocks, easy accessible forum and excellent faculty..everything was awesome. Glad that i chose Studybuzz.
Studybuzz	Online	NA	25000	8 months	The faculty here at Studybuzz is exceptionally good. The teaching methodology is such that it clears all your doubts of a particular topic, starting from very basic to advanced level. The mocks are upto the mark, in accordance with the exam level. Assignments are allotted on a daily basis for every topic that's discussed in the class and there are huge sets of questions which will definitely help in understanding the topic completely. Also, solutions are provided for all the questions, video solutions too. The topics are covered in a great dept in the classes. The most unique feature of this institute is its portal! It's phenomenal. There are lots of questions to solve there, section wise and topic wise alongwith solutions. One gets access to all the mocks for all exams. If more practice and clarification is required for a particular topic, one can also create their own mocks on the portal.
Studybuzz	Online	NA	22000	3 month's	The material they provide and their live classes are enough for any student willing to put effort and they provide u with ample resources like section wise test and 25 mock test which is more than enough plus they also give u facility of designing your test i.e type of questions you want to pratice and they also teach u with various other case studies etc which is very helpful . Specially thier quant is very good

Studybuzz	Online	Kolkata	12,500 (discounted)	Self paced	I have taken up the pendrive course which means it was pre recorded videos with online study portal for additional material(books, mock tests,etc)The 2 major issues i found with the self paced course is 1) A LACK OF IN DEPTH PREPARATION, and some of the important chapters were not properly covered. It wasn't possible to seek additional information on any topic either, since the course consisted of pre recorded videos and the doubt solving portal can take forever to respond, and 2) THE ONLINE BOOKS. Unless you have a very consistent and strong wifi along with a monk-like patience, it will absolutely frustrate a person to try and study from them. They can't be downloaded offline, and every single page gets loaded every single time. This can be very demotivating and time consuming especially during the beginning of prep journey as it is already hard to get into a routine to study and build habits. Mocks are okay-ish so far. Section wise, quants again cannot be prepared in depth for all the topics, other 2 sections were fine.
Studybuzz	Online	NA	25k	7months	Excellent
Studybuzz	Online	NA	35000	There batches start from January , but i have joined in April	I will definitely give them 5-star rating. The ebook and hard books is provided by them. And the best thing is that from the first day you were test with time so from beginning you start managing time . The classes were taken during night time so it will comfortable for both students as well as workers . The case studies are also discussed in extra time during classes which help a lot in developing thought process
Studybuzz	Online	Na	25000	March 2022 to march 2023	Great faculty, user friendly portal, manageable timing for classess . Saurabh is the best teacher/ tutor one can have.
Studybuzz	Online	Jodhpur (Rajasthan)	25,000	10 months	Studybuzz is an amazing platform if you are CAT aspirant. The teaching pedagogy is very structured. I would surely recommend to join studybuzz.
Studybuzz	Online	NA	25000	12 months	It has been a great experience learning from studybuzz. I have understood the concepts thoroughly and the way sir teaches and motivates us to do our best helps alot. Mock tests and preparations prepare me before hand without any burden during actual exams to perform well.
Studybuzz	Online	NA	25,000	1 year	The faculty is top class and the material they provide is entirely complete and enough. Attending online lectures, solving portal tests/ mocks and books is more than enough to understand the concepts and get a great score. They always take additional measures and are constantly improving their offerings to ensure that students are prepared extremely well. Thank you!
Studybuzz	Online	Na	25000	12months	Faculty is well-experienced, best is quant because they start from scratch amd take you to the advance level, mocks are good too, lastly, better than the coachings like time and unacademy.
Studybuzz	Online	NA	27500	1year	Studybuzz is the best platform to ace in your MBA exams. Their methods and techniques are the best and helpful for all students.
Studybuzz	Online	NA	16500	Till 31st march 2023	<p>Language of course is English & Hindi mix. The course covered the total syllabus of all the 3 sections. The course includes</p> <ul style="list-style-type: none"> 25 full-length mocks Previous year mocks (last 5 years) 8 sectional mocks of quant 8 sectional mocks of VARC 8 sectional mocks of DILR 3 Topic wise test on each topic (Easy, moderate, difficult) & nearly 10 to 15 mocks of each exam (snap, nmat, mhcet, xat, iift, cmat, atma, srcc etc) <p>They also provide study planner & ebooks. Personally i don't feel it is so useful.</p> <p>I just like the teaching style of saurab sir (Quant & LRDI) they teach how to approach the questions in logical way without using X&Y.</p> <p>Overall experience with studybuzz is amazing</p>
Studybuzz	Online	NA	27000	1 year	Best and dedicated faculty, futuristic and advanced study material, quality content, complementary interesting case studies and motivational talks, reality checks through mocks. Studybuzz	Online	NA	25K	12 months	My admission to IIM happened only because of the great mentorship and complete concept coverage in StudyBuzz's CAT course. They covered all the concepts thoroughly and explained everything clearly. The best thing was that the faculty were open to solving my doubts. The study material was thorough. The mocks helped me to prepare for the D-day. There was a good mix of questions (across all difficulty levels) covered in the mocks that helped my preparation along with keeping me confident. The faculty members also focus on motivating us for the journey - Especially during CAT and MBA entrance exam preparations, such motivation and positivity is really helpful. I highly recommend trusting Studybuzz for your CAT and other MBA entrance exam preparation. Studybuzz is the best coaching which covers all areas of your preparation. It is perfect!
Studybuzz	Online	NA	25000	12 months	Saurabh Sir is a gem when it comes to teaching Quants. I have feared Quants all along my life and his lectures complemented with the right questions for practice has helped me develop the subject end to end. The kind of effort the team does for each and every student is absolutely phenomenal. They do make routines for you to get your preparation completed on a time to time basis. What else does a candidate need? It will be a wise decision for any candidate to join the StudyBuzz curriculum
Studybuzz	Online	NA	27000	Jan 2022-march 2023	Faculty is good, especially saurabh kothari sir for quants (although anubhav sir not an mba grad, so from my pov i dont think he can guide us better). I like their study material, especially their timer based topic wise tests. Mocks are pretty good, they have variety of mocks (from 66 to 76 questions in exam). But I'd say catking is better to join, as rahul sir (from catking) says you should prepare with that teacher jinse tumhari ley jud jaye. Also, their dashboard is like ocean, you don't have to go to any other source for your preparation. In studybuzz you are not allowed to talk to your batch mates, which is the biggest drawback of them because we need constant support and motivation from our peers throughout our preparation. So, I'd say catking is better than studybuzz. (If you want to join studybuzz only, then take their pendrive course as their live class course is more like pendrive course). Ratings from my pov Faculty: 3.5/5 Study material: 4.5/5 Mocks: 4/5 Overall: 3.5/5
Studybuzz	Online	NA	25000	12 months	Quants is best. I was a non maths students so was very scared. But every topic was taught from basics and advance. The practice topic tests were add on. The best part was physical books which very rare coaching provide in online classes.
Studybuzz	Online	NA	27500	10	Saurabh Sir & Anubhav Sir are 2 faculties. Saurabh Sir is very strict & Anubhav sir is very jolly. They both teach good. The best thing is portal, which has all the tests, video analysis and mocks.I recommend it
Studybuzz	Online	NA	25000	9 months	Studybuzz USP is the case studies. After every lecture, there was a case study, which was next level. The cat preparation was good where we got a discipline. They give a lot of content so self study is also must.
Studybuzz	Online	NA	18000	12 months	I joined pendrive classes and it was helpful. I am a working professional, and thus could not join the live classes. The pendrive classes were good to keep me on track and doubt forum was also there.
Studybuzz	Online	NA	25000	10 months	Even if I get selected this year, or not selected. I will rejoin Studybuzz, for the dedication teachers have for the teaching. Saurabh Sir never gets tired, he will keep on teaching till 1-2 AM in night
Studybuzz	Online	NA	25000	9 months	Bdiya classes rahi. Sir strict hai kafi bas, toh darr lgta h Saurabh sir se. Lekin pdane me unse best koi nahi. Bas aap discipline raho, best experience.
Studybuzz	Online	NA	25000	1 year	Everything was well planned, the classes mocks, tests, we have been provided with the detailed full time table, which helped us to remember everything and keeps us stay consistent.
Studybuzz	Online	NA	27500	11 months	The quant and lrdi part is good whereas varc was below par, stopped watching varc lectures within 2 months and had to study for it on my own, live lectures of the other 2 subjects cover almost all the concepts but the practice would have to be done on a self study basis with questions available on the topic tests of various sections, books were totally useless and I will suggest you to not count on them...overall I am not fully satisfied with my experience but I still do recommend the coaching to you only and only if you yourself are ready to put an extra mile of efforts from your end
Studybuzz	Online	NA	27500	10 months	We got physical books which was best. The classes were held regularly, and we got a proper time table and daily assignments. Saurav Sir's case studies after every class were best to give amazing insights. Worth it !
Studybuzz	Online	NA	25000	9 months	I was looking for improvement in LRD1 & Verbal. I got satisfactory result. In Verbal, we got a lot of essay & reading material. In LRD1 lot of practice sets, but to crack this exam do a lot of self study.

Takshila	Online	NA	5000	Till the CAT exam	Everything is good. Especially if you are a slow learner or weak in quants than they're specialist.
Takshila	Online	NA	23000	almost 1 year	One of best coaching for your basic conceptual clarity and chandra sir is amazing. his teachings are so professional and to the point. Must go for this coaching.
Takshila	Online	NA	22000	6 months	Faculty was good. Each and every faculty feels like a nice fit for the subject. Study material as such is not there, questions are given as exercises on the website itself. Go for Live classes batch for more better understanding and problem solving. Overall very nice and value for money. Fees is same for 1 year also.
Takshila	Online	NA	5000	6 Months	Only bought the Quants Self Study Course and Accelerate Course (Rs. 2000) Loved the explanations and the practice material. The faculties are amazing and they are always active on telegram for doubt solving. The value for money is incredible. 10/10 would recommend to anyone who's thinking to purchase.
Takshila	Online	NA	5000/ (quant bundle)	Sep2022 to jan2023	Best coaching for CAT in context to Quantitative Aptitude preparation.
Takshila	Online	NA	NA	NA	I learnt Maths only because of Ankur Suryawanshi and Nishant, Wonderful teacher for Quants. Easy and back to basics methods, no complicating methods. For quants, I will suggest everyone Nishant and Ankur Suryawanshi. And, they are available for help at all times in the group, be it for test taking strategy, prep strategy or anything.
Takshila	Online	NA	NA	NA	Chandra Sir helped so much with his advices. I used to tag him in telegram, and got answers everytime for CAT prep doubts. Though, I liked Nishant Sir pedagogy more, Algebra teaching was awesome. Only because of Ankur Suryawanshi of Takshila Grok and Nishant from Takshila Shikshak TIWYS, I could crack CAT quants. They are so lovely and helpful people, and available for help at all times. Those who need special attention and help all the time must take their courses, especially for Quant.
Takshila	Online	NA	12000	1 yr	1 word amazing ...no students there can say that coaching has let them down.... Explanation are always in point... Always gets true and brutal advice ...it's a small coaching but really good .

TCM education	Offline	Prayagraj , uttar pradesh	45000	1 year	Best institute for mba entrance exams because here Mr ajai singh sir(founder) has very deep knowledge of these exams especially CAT. He knows what is good for students and what is not simply he provides you only that content which is related to exam and even in teaching the basics he will lead you to the advanced portion in his easiest way of solving methods. He simply uses one line quote which really helped me a lot in quants- JO KAHE WAHI KARO- and this institute provides you best knowledgeable faculties also they help each and every student by giving proper response to the queries and they teach you in the very easiest way possible.
TIME	Offline	Jamshed pur	₹56990	September 2022- march 2024	Time provides you offline as well as online subscription too, of mocks, study materials, cue cards for vocabulary, self assessment sheet, teachers also provide you worksheet after completion of the topic that help you to analyse how to solve and rectify your error further. I've attended 3 classes till now, I've chosen weekends classes (sat and sunday) . But I believe CAT exam is all about self preparation apart from my TIME classes, I try to study by myself there are a lot of stuff to study but so little time, you have to study 5 hr a day to match the level of CAT exam if you are a beginner like me.
TIME	Offline	New Delhi	50000	1 year	Faculty is fine but the whole thing isn't that good, as the mocks aren't also doing much justice to the real CAT, overall it is just ok

TIME	Offline	New Delhi	48000 approx	2 to 2.5 hours	<p>First of all and the most important thing is faculty.</p> <p>1- QUANTS The faculty of quants is all time best and he will teach u to his best</p> <p>2- LRDI The faculty of Irdi is itself from IIM Rohtak and he is also the very best teacher of Irdi</p> <p>3- VARC My honest review on this is that the teacher of VARC is not good. He just enters the class and completes the handouts and leaves. U have to get trained urself for VARC and don't expect anything from the faculty</p> <p>And as u know the mocks are the all time best of TIME i.e the AIMCATS and SAMCATS.</p> <p>All the very best for ur preparation and choos ur coaching wisely. Thank You PULKIT AGARWAL</p>
TIME	Offline	Vadodara Gujarat	45000	16months	<p>Honestly do not join Time vadodara for coaching. The faculty has no intention to see your growth. They want results but does not provide proper coaching, even faculty is damn worst. Study material i.e., booklets are a waste of time and money.</p> <p>AIMCATs are really good and sectionals are not upto the mark. Students can opt for only mock series of TIMEs if they are from vadodara. And with an honest review, I have been taking IMS's SIMCAT and using their portal. It's fantastic. Learn tab, practice tab, mocks as well, take homes and proctored, past year papers in mock form as well as sectionals.. So it's good to invest in IMS portal. And as far as coaching is concerned do it yourself as in self-study. Because joining coaching helped me nowhere, they only contributed 2-3%. Be wise while taking decisions</p>
TIME	Offline	Pune	44K	8 months	<p>Well ,TIME is one of the best institutes , faculties are well qualified and always available for solving problems. TIME	Offline	New Delhi (South Campus)	64000	7 months.	<p>1)VARC:- The most i enjoyed the VARC Classes here. Most fun and interactive classes. Ma'am was truly the best teacher here.</p> <p>2)QUANTS:- The teacher for quant section is truly knowledgeable and we'll informed. Again, in quants section if you love it, you will enjoy it. Honestly, in most classes i felt like sleeping a lot.</p> <p>3)LRDI:- Can't say much about this as I didn't attended most of the classes.</p> <p>4) STUDY MATERIAL:- The life of TIMES institute is it's study material. If you solve only this and score well and solve all the questions provided you will fetch better marks.</p> <p>5)MOCKS:- Last but not the least, Mocks are of high quality and too tough. If you score even good in TIMES Mocks, you can assure yourself of better percentile in CAT.</p>
TIME	Online	Hyderabad	35,000	1 year	Usually its well known for its excellent coaching material. Online classes were all held time to time without any skip/postponement. Faculty is also very good and helpful. Only turndown for me was the difficulty of the Test series(AIMCATs) which is way above the actual CAT difficulty.
TIME	Offline	Rajahmundry	30k	Around 4 months	I think there is no much difference in teaching of any faculty from any institute,we have to keep our efforts thoroughly until we get the essence of each topic and the main thing in the CAT exam is,first and foremost we have to understand the question and put in right manner to get the answer..So i think understanding the question plays major role in CAT preparation.Unless we understand the question we cannot solve the easy questions also..

TIME	Online	NA	40k +	November 2021 to February 2023	<p>Resources :- I'll be very honest with you Shweta, resources are the only good thing about TIME (At least in my case). The mocks are good, there are a lot of sectional tests. They provide full mock analysis, etc. They also have pre recorded video lectures for almost all the topics.</p> <p>My problem with TIME :- 1. Irregular classes - Throughout the year our classes have been irregular, like even today there was no class, there was no class yesterday and day before yesterday and the day before that too. This pattern was followed throughout the year, like there were barely any classes in the month of May and June.</p> <p>2. Lies we were told :- They told us last November that they'll reopen the branch in my city and I'll be having offline classes thereafter. That never happened. They told me the reason why the tuition fee is so high because they have to compensate for the books that they provide to us. I wasn't provided a single hard copy of a book, when I asked for that they simply told me that I have to refer to online books available on the website, and if I want hard copy of books, I'll have to pay 3k-4k extra.</p> <p>3. The Syllabus :- While all of the other institutes have started revising the syllabus, our batch still haven't completed it. Let me tell the topics that they still haven't covered - Time speed distance, time and work, profit and loss, SICI, Logs, Functions, Graphs (Algebra), and few more topics of DI. While I have prepared these topics from youtube videos, my batchmates are literally clueless about all these topics.</p> <p>4. No doubt solving :- They told us that there would be active doubt solving, but our teacher barely replies to our messages and doubts.</p> <p>5. No guidance :- There has been no guidance whatsoever by our teacher, our teacher doesn't guide us on how to attempt mock, neither do they persuade students to appear for mocks. Only 2 students (including me) from our batch appear for mocks. I try my best to persuade other students to appear for mocks, but they seem to have lost touch with their preparation because there was literally 1-2 months gap during our classes.</p> <p>My father literally had to borrow money to pay for my tuition fees, and this is what we get in return.</p> <p>Now of course this might only be the problem of my batch in TIME, maybe other batches are given full attention. I'm only speaking on the behalf of my batch. My fellow batchmates used to be interested in preparation and now they have 0 hopes from it. No matter how much I try to motivate them, it doesn't work.</p> <p>Now I would really like to thank you Shweta . If it weren't for you, even I would have stopped preparing. So thank you so much, you were meant to guide others . Really appreciate the hardwork you put, and how much research you do to make a video. I pray for you a very happy and a fruitful life. I just want you to know that you have made a positive change in the life of many. Keep on doing what you do.</p>

TIME	Online	Mumbai	43000	July 2021 till March/April 2023	Very systematic and structured. Faculty members of all the sections are very knowledgeable, address every doubt and query. Study material is sufficient enough for CAT preparation. Mocks well, I didn't score exceptionally good, but yes the analysis and solutions of every AIMCAT is very useful. Their SHP- student home page is the KEY to CAT preparation. Their doubt website is always active to solve any query. The sectional tests are of different, levels which challenges student. TIME	Offline	Allahabad	55,000	1 year	Faculty was not that much good except one or two maths teacher and rest were doing only formalities.they lured by saying that faculty will come from Lucknow and highly experienced but was totally false.....they attend offline classes only on weekends and rest is online and what I will be supposed to do with that if I had given offline fees... Mocks--We didn't given any offline mocks they do have mocks in their website and you have to voluntarily cover that . Study material - It was actually good I felt that they only run after money that's all they do not care about the students and management was very very poor since Ashish sir had been alumni of IIMK I don't know what's wrong with him.

TIME	Offline	BHOPAL	43000 APPR OX	15 MONTHS	Apart from 1-2, the faculty was excellent(the 1-2 were not that good but satisfactory as compared to others) Mocks of TIME are commendable but are of a higher difficulty. TIME	Online	NA	40k +	1 and a half year	I am adding on to my previous review. I wanted to mention the Branch of TIME institute. I am from Ludhiana, but my designated branch is Jalandhar, ie. my teacher teaches our batch from Jalandhar. So if someone is from the Punjab region, I would suggest them to go for IMS or other institutes like Unacademy, CATking, etc. Thankyou.

TIME	Offline	Patna	30000	9 month	Avg faculty , no extra material talk rather than coaching one , no fixed faculties , big chapter & important chapter are though in one go to all batch students, continues 6-8 hrs sometimes it feels irritating when you dont understand the topic
TIME	Online	NA	40000	6 months	Faculty is moderate. Mocks aren't that good. Study Material is fine. IMS would be a better option.
TIME	Offline	Lucknow	80k	From Oct'21 for CAT' 22	Time is the best place when it comes to material and the quality of questions solved in class. The teaching is genuinely really good unless you're looking for "extra" in depth teaching of concepts. They teach you, what you need to know to solve the questions in exam. The TIME-test series used to be infallible, but this year the quants sections was extremely irrelevant. Not just 3-4 mocks, but a good chunk since July has had only 3-4 arithmetic and a majority of pretty weird (not just difficult) Alzebra and Numbers questions. But, VARC and DILR are going strong. I also bought IMS and CL's test series and can attest, that you only need 2. Because if you take 3, I'm sure you're not making full use of the proctored and unproctored ones. Lastly, just want to point out that teachers and coaching can only do so much in case you're not serious. If you're not checking out Rodha or Unacademy or even Cracku for extra support that's on you, to not take advantage of these extra mile accounts. But, since you're already at Shweta's, I'm certain you're doing something right.
TIME	Online	NA	42000	1 year	Best institute but I had a problem with mocks. They were very difficult compared to the CAT exam and the other institutes
TIME	Online	NA	80000	1 year 6 months	Most of the faculty is good. They cover all quant concepts but very few classes are held for DILR section as well as VARC. Study material is good but the mocks are way too difficult and they don't resemble past year CAT exams specially in quant where the mock consists of just 2-3 Arithmetic questions and rest Algebra questions unlike CAT exam
TIME	Online	NA	33000	6 months	It's good , but sometimes i feel questions are not related to CAT difficulty level , it's tougher than that and might mislead preparations pf any student

TIME	Offline	Bengaluru	32500	9 months	Great guidance received at coaching center. Even if we can learn/revise the concepts online or using books, the tips and tricks shared by coaching teachers is worth it.
TIME	Offline	Jamshedpur	45000	9 months	Study material and mocks are really good but faculty does not acknowledge us to short method of solving any specific question on quant and LR.
TIME	Offline	Delhi (Jhandewalan)	60000	8 months	The faculty members are experienced and have many ways to make students understand the concepts, except for quants as the teacher (in my batch) himself was an aspirant. He knew everything but his way of teaching was not well as compared to other faculty members. Registering for doubt class is easy. Mocks and materials are good. I would suggest the students to have their basics clear prior to joining, or else it would be hard to cope with fast pace. Especially in quants, as they say it is "pre-requisite". Overall, anyone who is ready to grind and willing to devote himself/herself completely may join.
TIME	Offline	CP DELHI	64k	8-12 months	The faculty, study material and everything other thing is very good . All you need to do is start early to get enough time to prepare especially when doing it while in college because it becomes hectic if you start late because you have to manage college coaching and then study for both of them as well at the same time.
TIME	Offline	BHOPAL	40k-42k	1.5 yr	Mocks available are good and no doubt the sectionals too. The study material is also good as it provides you all types of questions from concept review to very difficult ones too. The drawback was that they teach only basic concepts in the class & most of the important/difficult questions of the sheet given for topic is been left out... Also, I didn't like some of the faculties in bhopal centre. Most of them are not easygoing.. Their process to get your doubts cleared is complicated you'll always have to take permission from the director first then she'll give an appointment in 2-3 days which leads to delay and piles of questions..... 3-4 faculty members are nice and always there to clear your doubts and guide you. (even on wapp). I still feel that one can just purchase their mocks and focus more on self study....
TIME	Offline	Lucknow	60000	1 years	Faculty is too good but they have said that they will finish entire course till aug last or in sep but their alzebra classes were get over now in oct their is no revision classes at all till now
TIME	Offline	Delhi	64000	10 months	Well all the topics have been covered, faculty is great, varies from even batch to batch, our QA and VA teachers were really great, Ir di being okayish. TIME	Online	Jaipur	55000	12 month	Teacher are good but supporting staff very rude but TIME still best coching
TIME	Offline	Hyderabad	40000	8 months	Faculty and Explanation are really well, Mocks are of next level(high moderate and difficult), study material are good. Stay self motivated.Unless we don't put are best efforts, coaching too won't be worth for us.
TIME	Online	NA	66500	6 months	I feel the standard of questions is too high. Like, me, as a normal guy I used to get around 90 percentile in mocks before. But, after attempting these mocks, I am getting around 50 - 60 percentile. Due to this, I got disappointed and felt stuck in the preparation. And the solutions for sectional tests are not given. Study material is pretty good.
TIME	Online	NA	55k	9 months	Faculty was fine but it used to take very long to book a doubt and resolve it. Individual attention and lack of guidance was there. Lack of strategy classes
TIME	Offline	GWALIOR	40000	1 year	Coaching material was good . Concepts taught were really helpful. Test series was really tough but analysis is good. I would recommend atleast test series from time

TIME	Offline	Indore, it was a mix of offline and online because I had joined last year	Rs. 40000/-	February to November	<p>Faculty: Some of the faculty members were really talented, they were experts in their subjects. I am grateful for the knowledge they imparted. But when we talk about the ones on top, they were very rude. They took seminars, maybe it was their way of negative motivation. But they destroyed my hopes by their harsh words. They talked in a rough tone to everyone in the seminar like we can't do this, if we haven't solved the material completely, then we shouldn't hope to be in a good college and that we are not worth it. I lost my hope to give CAT last year because of their attitude. I don't know how many students have gone through the same, but this needs to be heard.</p> <p>Mocks: Their mocks are harder than the CAT level. I have seen something unusual this year. The quant section doesn't have the same proportion for different sections. Generally in CAT, the arithmetic section has 40 to 50 percent weightage, but this is not the case in AIMCATS. Anyone can check this.</p> <p>Study Material: The study material is divided into 2 parts: Basic and Advanced. The basic material is really good, it helped me clear my basics. But when I tried solving the advanced material, the solutions of the questions doesn't have a proper explanation which makes it time consuming to solve.</p> <p>Environment: The environment is professional but students are given notices on the way they dress. They wrote notices where it was mentioned that we should wear decent clothes to Coaching and we shouldn't dress for seeking attention, and stuff like that.</p>
TIME	Offline	Delhi	60,000	7 months	At Time institute, faculty is really good but fees is way too high I think one should join them for their mock and study material package that will cost less because at the end I'm studying myself for my 2022 attempt .
TIME	Offline	Chennai	40000	1:30 hours	I'll say they just rushed up to finish the position just for name sake lack of proper guidance
TIME	Offline	Hyderabad	36000	8 months	<p>Study material and mocks are great, but sometimes they are too tough, especially the DI material feels unsolvable sometimes.</p> <p>Faculty wise it's a 50-50, Verbal and LR have excellent faculties but Quant and DI faculty aren't that great, they sometimes come off as arrogant and sometimes demotivate students and point them out in the class.</p> <p>All in all TIME is OK not great but not bad either, the resources on their portal are Excellent. I think it would have better if their material had LODs like Arun Sharma books and they don't specify the duration of the course i.e till when the classes are October or November.</p>
TIME	Offline	Mumbai	42000	3 to 3.5 m	Faculty are good but the management team is very bad. The schedule are not so proper as per expectation.
TIME	Offline	Kolkata	50,000	9 months	Faculty was okayish, Mocks + Sectional Test were amazing, analysis provided was good.
TIME	Offline	Jaipur	70,000 after TIME Scholarship test.	2 hours.	Faculty is very good specially of quant, provide sufficient number of mocks(SAM-CAT, AIMCAT, Sectional tests of different level). The only bad thing is that on their portal they pay very less emphasis on other management tests and question paper of last few years of CAT, XAT etc. are not there basically not up-to-date.
TIME	Offline	Hyderabad	37000	4months	Here faculty is excellent but my concern is different faculty teach different topic of same section, so we don't get chance to create a bonding with the faculty for clarifying our doubts and we don't get any mentorship. They will come and explain the basics of the topic, they don't guide us how to manage with the problems further. They tell us to do everything in the limited time, we don't get proper guide in that time institute. They don't provide offline doubt sessions. For new cat aspirants like me mentorship and guidance is very important to survive through the cat journey .
TIME	Offline	Jaipur	Approx 90,000	2 hrs	<p>Faculty: Some of the teachers are very good (both from teaching perspective as well as general guidance) and a few teachers don't even know the concepts properly.</p> <p>Mocks: Mocks are really difficult. They are so demotivating that me and my friends have gone through the phase of quitting Cat ,mannier times. Our only saviour was shweta arora.</p> <p>Study material: Study material is good. A lot of different variety of Questions available which helps in good preparation of topics. Also they provide 300+ sectional tests which is really helpful.</p>

TIME	Offline	Mumbai - I had paid for offline classes - however I preferred attending online live lectures	41000	10 months	<p>Teaching was good, the basics were cleared well. Since I had paid for online classes and due to covid lectures were happening in live online format I have recorded lectures of all topics for revision and if needed I can attend offline classes. But after attending online classes I felt offline were not good enough - at least for me. This could probably be because I'm used to faculty teaching me online. Here the faculty keeps on changing based on the topic, however the same faculty takes a couple of topics.</p> <p>If I had any topic doubt I would drop in an email and would get a response. However, there was not much support provided if you needed a proper mentoring or study plan. There is a lot of study material provided, but some things that are not relevant to CAT can be simply skipped.</p> <p>If you are new with no idea regarding prep I would recommend watching youtube videos and understand the prep process because they schedule 2 or 3 classes of a topic or couple of topics and you would be left out confused when to start with books or sectionals.</p>

TIME	Online	NA	40000/-	Joined in June	<p>Could have given a negative rating if possible Unconcerned management team for serious CAT aspirants like us. Almost everyone in our batch was fed up and stressed with this coaching. These are some messages that I've and some other students posted on the group.</p> <p>Good morning to all. AIMCAT 2310 was over day before yesterday . And still the video solutions of either section is not uploaded. Expert review says analysis needs to be updated too. Please help me with this , every AIMCAT concern. Regards</p> <p>Waited for the whole day. Neither expert review nor the video solutions are uploaded of this AIMCAT too (2312) Well some quant video solutions which we had a doubt in of the previous aimcat where too we complained , the video solution are not posted till now . Please take these things seriously. We can't extend doing the analysis and afford this .</p> <p>Nothing resolved yet , I need to do this AIMCAT's analysis Please update when will the expert review and video solutions be available ?</p> <p>This is not resolved yet. Please atleast give us a reply about the same .</p> <p>Good evening everyone . Since just 3 months are left for our CAT exam and have some concerns for the same .</p> <p>1) The classes scheduled are cancelled sometimes and those classes are never scheduled again. For example : We had 4 sessions scheduled for PPL SICI on June 3' but could manage to cover only PPL and was informed to keep SICI as the 5th session which is not covered till now. Same happened for some DI classes too. This is a put off personally for me.</p> <p>2) Doubts are not addressed properly. Doubts asked in July , that too asked in the given time mentioned in excels sheets are not addressed which keeps the concept unclear.</p> <p>3) Talking about the AIMCATS , the strategy video is not posted or if posted , takes a lot of time . Neither the expert review / analysis is updated nor all the video solutions are updated . (or updated after some time) which carry forward doubts/concepts and it eventually piles up.</p> <p>4) Class for Para jumbles , Para summaries , odd one out or practice solving an RC live is not done lately.</p> <p>Thank you Siddharth</p> <p>To whomsoever it may concern : Being a serious CAT aspirant and enrolled 3-4 months back. I just found unconcerned efforts from TIME management and concerned members. Every second day the portal gets lagged , and breaks our link I was seeing some video lectures and now the time is wasted and link is broken. Other than this I've posted only complaints on this group regarding carelessness of online classes which were cancelled in the start , AIMCAT late analysis and video solutions not posted , website not working etc. Being a big name in MBA coaching , this is a so unfair for the students. This not only wastes our time , gives us stress about not having things to study and ourselves note about what classes have not been scheduled etc and and unfortunately reduces our faith in our preparation and TIME. If anyone is reading this , a student and find it relatable. Kindly reply here with a ' +1 '</p>

TIME	Offline	Jaipur	85000	1 year	TIME institute is a well known name among MBA aspirants, and i joined solely for that reason, the online portal(includes around 50 mock CAT and around 33 OMET mocks, many sectional tests, again very helpful and numerous other practice material such as daily handouts and paragraphs for reading)and study material that they have provided is helpful to a great extent but my classroom experience have been average so far. The frequency of classes was very low and you can't rely on them solely. I learnt some important concepts on YouTube that my coaching doesn't teach. Long story short, I advise you to join a coaching institute once, keeping in mind other factors like geographical distance, fees and selections from that particular institute.
TIME	Offline	Panaji	52,000	1year 4 months	Faculty was good but the depth to which they taught was poor. Moreover, frequency of classes was also less. VARC classes were bad, maths and dile average. Material was sufficient and good quality. Got a lot of topicwise, sectional and mock tests. Doubt solving was not good enough. To sum up classroom course was poor but material, amount of mock and sectional tests was really good
TIME	Offline	Delhi	53000	From July onwards	For most of July and half of august, they hardly took any classes as they tried to maximize their intake for the last batch of CAT 2022 Aspirants. It was promised at the time of taking admission that quant topics would not be finished in a single two-hour class, but he has brashly completed the syllabus for every topic in a single class without caring about the fact about pace if it's being understood the majority, LRDI faculty I would say we had a total of 10 basic classes till October and for their end, the syllabus is completed without solving at least 50 sets in class, now we have workshops for LRDI again taken by the Quant faculty who expects us to solve without knowing we have not been taught any kind of questions in the classes while explaining he takes only one method which he has been given by TIME again understanding becomes tough for us, VARC was friendly and optimistic, it was an interactive class but again most of the time was spent on grammar instead of sticking to majorly CAT oriented syllabus. With the price that I have paid I am not satisfied with this institute, Mocks are good, the Material for QA is good , VARC material has more Para jumble, Para summary and Odd one out and less Reading Comprehension to practice, Books for DILR is ok for basics, real-time questions only done in workshops .

(Preferably join weekend batch)</p> <p>If you join coaching(TIME specifically) then you don't have to worry about anything, the material and classes that they provide are more than enough for each and every management entrance exam. If you do join follow this strategy: After joining they give you access to a student homepage where you can give AIMCATS and sectional test and study material etc. And they email you the schedule and topic that will be covered in the upcoming class.</p> <p>Always follow this and you'll score more than 95%ile easily Login to your student home page> Video lectures>Select the subject and the topic according to what will be taught in the first or upcoming class and watch the video lectures.</p> <p>After that open your STUDY MATERIAL booklet for the same subject and same topic and read the theory, and then try to attempt as many questions under the heading CONCEPT REVIEW QUESTIONS as you can. Then go to the class attend the lecture, make notes in class. After coming home, revise what you were taught that day, do all the questions that were discussed in the class again. Now make short notes in a notebook, and also write the questions that you found difficult to solve. After that start solving questions of exercises 'a' and 'b' . And as soon as a chapter is completed in coaching, give 2 sectional test for that particular topic. Analyse those tests and the areas that you're still weak in and then revise those concepts.</p> <p>Repeat this until June end. And keep giving AIMCATS also all this while. And remember to keep revising the completed chapters from your one sheet notes and short notes and sectional tests.</p> <p>By June 90% of syllabus is completed if you join 1 year course starting from November. In June start revising again from short notes study those areas that you can't recall and give sectional tests.</p> <p>For mock analysis watch video by Shweta Arora on YouTube search How to analyse mocks by Shweta Arora</p> <p>Pro tip- never miss a class and never procrastinate.</p>
TIME	Offline	Bhopal	45000	11 months	<p>Library facility, mocks and sectionals, study material are good.</p> <p>Faculty depends on the batch you get, Manoj sir and Saket sir are best for Quants and LRDI both but the teaching pattern of other faculty members is not worth the money paid. Join time only if get distracted easily in online mode and want disciplined offline preparation(but with average faculty) otherwise online coaching like EG , takshashila etc are better and cheaper options.</p> <p>Overall review: Good but not worth the money because majority classes taken in my batch were by a not-so-good faculty members.</p>
TIME	Online	NA	50,000	It started from January	<p>Faculty is good but doubt solving is not done properly for online students. Also, they promised to complete the syllabus by September and now it seems that syllabus will go till 20th October or even complete October. Study material is good no doubt. They provide many tests- sectional as well as full length mocks but the major issue is syllabus completion.</p>

TIME	Online	Chennai	40000	For 1 year(jan 22-jan23)	To be honest, time institutes mock test and their study material are top notch but I would suggest watching online lectures available on YouTube (eg: RODHA) for basic concepts. TIME	Offline	BHOPAL	40,000	1 year	Faculty js not so good Material is good but nobody available in coaching to help with these questions
TIME	Offline	Chennai	34950	I enrolled on august and it is valid upto april	In simple words, time institute is only for advanced students who are all keeping their academics best and also been best in fundamentals. otherwise, if u are coming from a non-CBSE background you need rigorous, practice to cope with the faculty teaching method. This is what I felt for each section of classes taken in the institute. Maybe it differs based on the person's IQ level. I am sharing my experience only.

TIME	Online	na	35000	8 months	<p>the class started of well but the session had around 300+ students online and the issue was that they took 5 months from feb-june for the completion of arithmetic and later the began racing to complete the rest and we were told on the orientation day that the syllabus will be completed by june or max by july, whereas the portion got completed only in the month of September that is they completed algebra geometry and modern maths in 3 months and it was bit problematic for me as there were lots of assignments sectionals for varc and dilrs also to be completed, it is such that the brightest of the students will cover up nt i had to handle basics as well so it was bit difficult and the times mocks were too tough times that it demoralized me.</p> <p>But the times booklets are great they have a variety of question. I took a year drop and this year completed the syllabus again through self study and youtube videos suggested by you and completed sarvesh verma and times booklet by june and took IMS mocks and till now this has been fruitful. And also upon a discussion with my prep group we have come to know that the varc section of ims is a bit upsetting as to last year as rcs are to the difficult side as to what ims always offers (ims is known for exactness to cat paper mainly varc section) apart from that everything is good.</p> <p>I would suggest someone to get hold of times booklet and sarvesh verma as it has everything a beginner needs from understanding basics to advance level questions. Go for ims mock series and take something else too maybe CL or TIMES, this will take care of varc and dilr and past papers will be the final one.</p> <p>thank you</p>

TIME & Catking	Online	NA	4500 & 3000	Mock Series	<p>Time mocks are more on the tougher side but the interface and the analysis is on point, Sectional are of good quality. (Would Recommend) You get a better percentile result as more people give these mocks (12k)</p> <p>While for Catking the mocks relatively easier than Time and feel relatively closer to cat level, they do get glitches in their analysis(jumbled questions while analysis) (this is something i personally faced) their online self study material is good and what i their stand out point would be they call you often to counsel you during your preparation. (would recommend if u want to go for a 3rd mock series)(1-2k mock takers)</p>

TIME classroom course and IMS Test series	Offline	Hyderabad	For time its 34000 for ims its 4000	Time 1 year	TIME and IMS are the best mocks to be taken but shouldn't panic with low percentile because the standard of these questions are very higher level than actual CAT Study Material of TIME is really good but not enough i suggest having arun sharma for DILR and RC Faculty is worst in TIME .. Just they are coming to class just for the sake of salary. No zeal to help or make people learn They dont even complete the topic which has to be covered just they leave after 90min whatever they covered I just want to give 1 example.. We have different faculty for different topics ... Once i asked a doubt regarding DILR, sir directly told ask the other faculty who taught you that topic.. The actual one who taught us never appeared again.... So i suggest go for self study with time study material and go through time online videos which was included with offline class package

TIME, CP	Online	NA	50,000	8 months	Quants faculty Great , Lrdi faculty Mediocre, Varc faculty- Good, Mocks- Interface is great, Level is Difficult than actual CAT. Study material- theory portion is insufficient, not good for self study, If you are weak in any area, not much attention is given (as told by time at the time of admission), the pace of classes just accelerates so quick,. If you are weak in any area you wont be able to grasp. If you mention that to the faculty they say, we have so many other students we can't do this.For eg i am from a non maths commerce background and i had issues understanding the basics of PnC and Logs, Indices Surds etc. Even after requesting them the faculty doesnt give much attention. They claimed to provide ABC of quants classes ie the basics of quants classes. Which they didnt. Note, I took coaching in the year 2021 the year of pandemic, the coackng was online that is why i faced ao many issues. Wont recommend online coaching.

Unacademy	Online	NA	21k	12 months	Ravi Prakash sir is the best in Quant and LRDI. Anyone can follow him blindly for these 2 sections. Each module is taught very well and covers everything in quant. In LRDI, he teaches how to approach all types of qns, and he solves close to 400-450 sets in his live classes itself. The best. For VARC, I personally haven't been following any educator in particular but there are good educators like Shabana mam.
Unacademy	Online	NA	20,000	12 Months	QA: Ravi Prakash sir is undoubtedly the best. While the length of the courses may be a bit longer as compared to others, but all high quality questions and concepts are covered thoroughly in the course. He explains each concept in depth that too in an easy to understand format. 10/10 recommended. The UA practice session never suited my practice style, so instead I did worksheets of other institutes. They are easily available on google drive in the telegram group of each educator. LRDI: Ravi Prakash sir is again the go to educator for this course. He covered more than 500 sets in his courses. The LRDI assignment plus his classes are easily sufficient to ace LRDI. It is very important to cover a large variety of questions in LRDI and Ravi sir's course ensures that you get a breadth of sets to learn and practice. VARC: Didn't follow any educator religiously. My VARC was good from the beginning so I never felt the need to follow a course. However I did attend the strategy session of Shabana ma'am and they helped me in score stabilization and optimising my attempts.

Unacademy	Online	NA	20k	12 months + 6 months extra.	1. From content points of view i thinks it is the best be it quants, Lrldi or Varc are on point but i think some a student can feel to much under burden of backlog because of to much classes in daily schedule and many not able to do self study. 2. Mocks are good but analysis of mocks are missing in video format analysis classes get cancelled or not done many time. 3. Just a suggestion to all if u are going for UA. If you are a student who has plenty of time in a day than you can go for UA as it has great content for practice and more but if you are working or college student with hectic schedule don't go for UA because it may be very hetic for you to cope up with the class if join classes at last 6 month of the exam.
Unacademy	Online	NA	17000	1.5years	Classes were awesome, Quants And Lrldi are beyond the imagination (by Ravi Prakash Sir) and for VARC (Lokesh Sir) is a complete package. Unacademy	Online	NA	20000	Around 5 hour per day	Ravi sir and udit sir is best
Unacademy	Online	NA	20000	5 months	It was great that I could choose try different educators in the first few days and then choose the one that suited my pace. Two educators that I'd like to mention are Bharat Gupta sir for Quantitative Aptitude and Shabana ma'am for VARC. Bharat sir is absolutely fabulous and any student who attends all his lectures and does all his sheets is already 80 percent there. 20 percent would be simply trying new questions everyday. I've always been an avid reader and I thought that would be enough for my VARC preparation but I was mistake. There's a lot of strategy that goes into maximising the attempt as well as accuracy rate and Shabana ma'am's lectures do just that. Moreover, her lectures are a treat and can genuinely act as a stress buster after studying all day. Although Unacademy has its own test series called AIMT, I would recommend getting one more (TIME/CL). This doesn't mean you should only give TIME mocks. You should give AIMT as well but don't expect the paper quality to be as good as TIME's or CL's. All in all Unacademy is genuinely better than any other institute out there.

Unacademy	Online	NA	~19000	14 months	Some of the faculties are really good at unacademy for CAT. I browsed initially during free subscription time and chose the educators I wanted to study from in my subscription period in that phase itself. I studied from Ravi Prakash for both for QA and LRDI. Then I studied with Karishma Vanvani for VARC, she is an ex educator now. All a aspirant needs is find the educator they understand and enjoy studying with because there are going to be many ups and downs of emotions during preparation and the right educators can make that time a lot easier. All the three sections are extensively covered for CAT with sufficient emphasis on additional OMETs topics. Some of the mocks of UA are really good but I feel, the user interface can be improved by a lot. I personally feel that UA educators and notes section provides more than enough notes so I wouldn't recommend any additional study material for CAT but the aspirant do need to research and work extra hard in case you are preparing for specific OMET cause the pattern and the demand of the test varies with respect to CAT. All the best.
Unacademy	Online	NA	10k for 24 months I got 50% discount back in 2021 in scholarship	24 months	The faculty is upto us to chose among top educators but there are only 3-4 best educators to study from. The syllabus coverage includes every topic in detail with lots of practice courses by different educators . Someone who doesn't want to travel to coaching everyday and study at their own pace can definitely prefer Unacademy. The study material and different mocks and tests have been introduced for better practice and sectionals are very apt. A definite thumbs up from my end for choosing Unacademy as best online coaching in the market for 2023 takers.
Unacademy	Online	Na	16000	8 mnths	Good worth the try
Unacademy	Online	NA	20k	1 year	Unacademy has a huge number of teachers, but I found only some of them good. I found 2-3 teachers great and prepared with them, whom I am satisfied with. They have a good number of sectionals and mocks and notes have also been launched which also have some good revision questions and concepts. Still, the aspirant is recommended to buy a test series during the later half of the preparation to keep a variety. Overall I was happy with my choice.
Unacademy	Online	NA	31,000	12 month	Unacademy is really a great platform, the thing I like most about the same is that you don't have to rely on one educator if u don't like the teaching method of that particular educator you can choose anyone else who suites you. plus I am an ICONIC subscriber in which in which I get mentor with me so that I can consult with him/her regarding my prep strategy analysis of my strategy and also if u are having any problem that can be solved easily also. In all I would definitely recommended UNACADEMY. OTHER THAN THIS IF U ARE JOINING UNACADEMY DO TRY ATTENDING CLASS OF LOKESH SHARMA SIR(VARC) & LOKESH AGARWAL SIR (LRDI/QUANTS) FOR ME THEY ARE BEST.

Unacademy	Online	NA	19500	9 months	faculty- Top notch Quants- Sameer sir is a true magician. DiLR - Plethora of options non of them are wrong. Varc- Lokesh sir is the only one you will ever need. mocks- Lacking in an enough quantity. Study material- rolling out in forms of notes but I honestly found them useless to me. My thoughts- Unacademy is the best cat study platform (including offline coaching institutes) reason- easy accessibility, options to choose your own educators, no time constraint, quality lectures and comprehensive coverage of syllabus.
Unacademy	Online	NA	24000	1 year	Best teacher (ravi prakash) For mocks u have to purchase from out sources.
Unacademy	Online	Na	18000	2 years	Best in online coaching domain
Unacademy	Online	NA	25000	6 months	Faculty is not so good
Unacademy	Online	NA	20000	1 year	The faculties of unacademy are awesome. All the concepts are explained very nicely.
Unacademy	Online	NA	22000	9months	Go for teachers not coaching institutes. First decide which teachers you like then go join wherever they're teaching. I have my favourite faculties in Unacademy.
Unacademy	Online	NA	18000	1 year	Ravi prakash rockw
Unacademy	Online	Na	18 k for 2021 and 2022	2 yr	Quant and Ir di best Ravi prakash ,mock analysis go sir and Gejo sir career launcher, English self study
Unacademy	Online	Na	22000 for one year	Self paced.I Started from June.	Faculty is good. Mocks are newly introduced in Unacademy so I am not certain of its level.
Unacademy	Online	NA	19500	6 months	Study materials are good,mock also good,but almost all classes are in hindi,I am keralite ,in unacademy there have 'classes in english' option,but that classes are also in hindi...I dont know hindi
Unacademy	Online	NA	20k	6hrs during the starting phase of prep	Faculty- awesome (all are supporting and try to help Everyone) Sectionaland mock is average if compare with good colleges. Study material is good and easily accessible. And best thing is you have recording feature..
Unacademy	Offline	NA	18000	1 year	In the unacademy, there are many educators, for starting days one can randomly watch top educators session and decide which one to continue. Personally I feel Ravi sir is the best for LRDI. High-quality sets are been discussed. For QA Bharat sir is the best, from scratch he teaches with all the patience and same goes with ravi sir and for VARC one can follow shabana ma'am. Rest unacademy is a golden treasure, one can check last year sessions, mocks, notes everything :)
Unacademy	Online	NA	20k	15 months	Teaching faculty is amazing
Unacademy	Online	Na	15000	1 year	N
Unacademy	Online	NA	25000	12months	Good for Quants and DILR .
Unacademy	Online	NA	30,000	1 year	For QA and LRDI I could not recommend anyone other than Ravi sir on unacademy but for VARC we have to really struggle as it lacks a good educator for VARC
Unacademy	Online	NA	20000	1 year for Cat 2021	I struggled initially in unacademy platform because it was so new so whenever someone came live .. i used to join his class but eventually i came across Ravi Sir and i believe he is THE best available guru for Cat but i regret wasting my time searching for best teachers.. So i believe unacademy has great app experience and i trust only Ravi sir and his materials and questions but i want to know if iQuanta or CatKing batches are better and more effective (both in terms of knowledge and pricing) Thanks :)
Unacademy	Online	NA	16500	12 months	Unacademy = Ravi Prakash, the best teacher/mentor I ever had in my life.
Unacademy	Online	NA	15k	1 year	Faculty , material - ravi prakash sir (LEGEND of all time) mocks are not upto the mark
Unacademy	Offline	NA	20000	15 months	Mocks aren't good enough

Unacademy	Online	Na	Around 22k	June to april	Its gud with variety of ques .mocks and ravi sir lec are awesome
Unacademy	Online	NA	Around 19,000 (for plus subscription)	1 year	<p>I liked Unacademy coaching, it was easy for me manage my studies along with my college studies and exams, if you know the concepts beforehand you can skip the lecture or fast forward the whole lecture, some teachers are great in every aspect from teaching to doubt solving. You also have the option to choose the teacher from whom you want to study. One more thing to note is you should select any one teacher for each subject and follow that teacher till your exam. There are some classes scheduled just for doubts where you can clear your doubt from previous classes. Every teacher has his/her telegram groups for doubt s, discussion, class announcement, study material etc.</p> <p>Mocks are of good level, but UI is not that great, tests sometimes get stuck in the middle, although I recommend taking any one test series from any good coaching institute.</p> <p>I took the plus subscription so physical notes were not given to me, instead online notes were given to us which are good for revision. Unacademy also has the feature to practice different chapters/topics/sections, and questions also are of good quality.</p> <p>I think coaching is just 50 % of your preparation, what you study after your coaching is more important.</p>
Unacademy	Online	NA	18000	1.5 years	<p>Actually I didn't like the coaching as such because there is no good verbal faculty in Unacademy.</p> <p>The only thing that puts a smile on my face everytime I hear Unacademy is Ravi prakash sir... if he leaves Unacademy today..I'll also leave despite paying !</p> <p>He is not just a teacher or faculty, he is a true mentor.</p> <p>My only suggestion to future aspirants is to follow Ravi sir blindly and whenever Career launcher's VARC1000 Course by Gejo sir comes (Usually it comes in may/june) just take that, that is the best for VARC.</p>
Unacademy	Online	NA	17000	9 months	<p>Faculty is awesome, at first we just need to find the right one for oneself (in terms of concept clarity and vibe)</p> <p>Once you find yourself the right teacher, stick to him and simply follow what he/she teaches and give the exams/tests recommended by them honestly.</p> <p>Unacademy doubt clearing is a bit OK...</p> <p>Try to personally connect with your faculty and keep updating them about your performance they'll definately help you to Ace</p> <p>Unacademy is just awesome</p>
Unacademy	Online	NA	21000	12 Months	I think everything is perfect there are many educators and mocks are also good
Unacademy	Online	NA	20,000	1 Year	Totally worth it with great teachers, notes and mocks. Ravi Prakash Sir for Quant and LRDI is recommended.
Unacademy	Online	NA	18000	12 months	Ravi sir for Quants & DILR
Unacademy	Online	Na	6000	1 year approx	Ravi sir is one of the best teachers to study with is all I would say. Even if i don't crack the exam i will always be thankful to him because he has made me understand how hard work can make you achieve anything in life. Thanks shweta di.
Unacademy	Online	NA	32000	9 months	I am happy and satisfied
Unacademy	Online	NA	20400	12 months	For online I think Unacademy is doing great job...
Unacademy	Online	NA	20000	1year	Everything is just perfect
Unacademy	Online	NA	Around 20,000	15 months	I followed Ravi Prakash Sir for QA and LRDI.He is the best teacher to follow.Mocks are also good.
Unacademy	Online	NA	45000	1 year	Unacademy is good but honestly only 1-2 teachers are good as there are as many as 10 ...and they are sufficient if you stick with them throughout your preparation
Unacademy	Online	NA	21000	12months	<p>Platform provides variety of educators and students can choose among them according to there level of understanding.</p> <p>I would personally recommend Sameer sardana sir, he is not very famous but i believe he is far better than many faculty members for quant. Everyone is crazy for Ravi sir but i think he is better for people whose quant base is clear ...but not for those who want everything from basics being a non math student i was unable to relate with Ravi sir but it was a great experience with sammer sir.</p> <p>Varc section is best taught by Lokesh Sharma sir earlier Karishma mam was the best but now she has left the platform so the next best option is Lokesh sir.</p>
Unacademy	Online	Na	Approx 10k	6 months	Honestly Unacademy is all about Ravi Prakash sir , for quant and LRDI you can blindly rely on him, but look your back for VARC.

Unacademy	Online	NA	29000	2 years	Overall it was good experience....range of teachers provided is very good especially some teachers teach really well. I felt teachers for VARC could've been better. QA and LRDI teachers were exceptionally good. Study material is not very good but okay. Mocks are the weak point of unacademy. They're not able to provide a balanced mock as QA comes unnecessarily tough and VARC unnecessarily easy. So overall...if someone wants to join they definitely can go for it but purchase some other mock test series.
Unacademy	Online	NA	22000	12 months	Faculties are best..just they should Introduce hardcopy notes modules too..
Unacademy	Online	NA	10000 (50% scholarship applied)	2 year	Faculties are very good specially Ravi Prakash sir for Quant & DILR and for VARC it's always Shabana Mam
Unacademy	Online	NA	35,000 /year	1 year	Faculty- Don't know much about faculties. I joined it because of a faculty named Ravi Prakash who has a YouTube channel named Roadha. I was able to relate with his teaching style and eventually found out he teaches full time at unacademy so I joined it just because of him. Mocks- They provide you with optimum mocks but you should enroll in 1 additional mock from the start. Study Material- For me, Class notes on quant and Irdi along with arun sharma were enough Can't tell much about VARC cause I did self study in that but I have heard Shabana ma'am is quite good. Overall I liked the experience which I got from unacademy.(I only took Quant and Irdi classes just from Ravi Sir, so cannot say about others.)
Unacademy	Online	NA	39000 (Approx)	18 months	Here we gets instant doubt solving, variety of teachers, cost saving as compared to offline institute that charged more than 50,000. Here we also get mentorship of IIM students , they help us in strategy planning. I strongly preferred to others.
Unacademy	Online	NA	18000	12 months	I think everything is good at unacademy specially quant ,Irdi section , doubt solving section , it gave enough mocks but i think everyone needs one more mock in any institute for better understanding the exam pattern, ☺ ☺
Unacademy	Online	NA	19000	1 year	There are good educators and vast variety of practice . Lucky to met Sir Lokesh and Karishma Ma'am

Unacademy / Catking	Online	Na	18000	9 month	<p>For unacademy -</p> <p>Faculty wise I found it top notch, Ravi prakash sir for quants and DILR</p> <p>Bharat gupta sir for quants</p> <p>Shabana maam for varc....</p> <p>And many more but they are the one to whom i refer</p> <p>Every faculty has their own unique teaching style which give wide range of options to students. Their interface is quite user friendly and it is improving everyday.</p> <p>You might notice some glitch and lag in website you log in your account on multiple devices and work on them simultaneously.</p> <p>In terms of mock i still didn't get much of clarity with unacademy as there are no organised page for mock. Student those then i who have opted unacademy also consider different coaching institute like IMS, TIMES AND CL</p> <p>Study material - different study materials are provided by different educators on regular basis and also there are 10000+ questions available on its portal for practice .</p> <p>Teachers are really helpful and reachable most of the time.... So i would rate 8 out of 10 to unacademy.</p> <p>Now catking which i took initially.</p> <p>Frankly speaking they have the best marketing guy who is also the founder of catking.... Class mein sab kuch hoti hai inki padhai k alawa.... They only motivate students with unrealistic expectations (which sometimes i found it helpful) and nothing else.</p> <p>There are lots of error and printing mistakes in its study material which might be painful to the student who have just started with the preparation.</p> <p>Also if there is any technical glitches or issues we don't know whom to reach out. Once i had to wait for 2 days to get it resolved.</p> <p>I paid 20000 for this which was my one month salary.... Within first month i started looking for different option... And had to wait another two month and save some amount to get another subscription.</p>
Unacademy and Career Launcher	Online	NA	20K(Unacademy) 5k (CL) (Both are approximate value)	1 Year	<p>Ravi Prakash Sir is one of the best faculty for DILR and QA in India right now. There is no good faculty for VARC in Unacademy and mocks are also imbalanced. Gejo sir from Career Launcher is a very good faculty for VARC and for mock IMS CL and Time all are good.</p>
UNACADEMY for QA, LRDI Career launcher for VARC	Online	NA	20000	8 months	<p>I got benefitted only for QA and LR . I took CL for VARC</p>
Unacademy iconic	Online	NA	28,000	6 months	<p>Vast selection of batches to join, study material is good and iconic subscription includes doubt solving section, personal mentor, open house discussion, sectional test, pdf notes, printed notes. But it's for those who have atleast 6 months time in hand to complete the syllabus because the recorded lectures are from live classes and for someone who would only want concept videos (not the live class recordings) then it's not suitable for them.</p>

Unacademy plus	Online	NA	11500 for 12 months with the help of combat scholars	12 months	The quality of teaching is best
Unacademy, TIME	Online	Pune (Kothrud branch)	41000 (TIME) + 33000 (Unacademy)	TIME-3 months	TIME - Faculty is good but schedule is too hasty. Less no. of classes allotted to important topics of LR and Quant. Less practice sessions. Unacademy - Too many faculties. Confused to choose faculties. Schedule is vague. TESTs can be better. Only ebooks.
Unacademy	Online	NA	18500	14 months	Everything is at par..... from strategy sessions , classes , to mocks and there analysis ... everything is superb ...yet the quantity of mocks if low but it's enough for a serious cat aspirant ...
Unacademy	Online	NA	18000	2 year	It's very good coaching institute
Varishth	Offline	indore	32000	1 year	Honestly in coaching they didn't teach us specifically for cat ...their que. Level is very low because their is combine class of all competitive exams and entrance exam so i am not satisfied with that so i leave my coaching and now i am doing self study
